GROWTH FACTORS (contd)

Cell division and organ initiation in plants G-8145
Regulation of bacterial catabolism G-8437

GROWTH HORMONES

See also Auxins
See also Gibberellin
See also Pituitary hormones
See also Somatotropin
Regulation of metabolism A-113
Action of growth hormone in primates A-292
Effect of insulin on metabolic reactions .. A-357
Mechanisms of hypophysectomy anemia... A-476
Mechanism of nitrogen retention in pregnancy A-623
Endocrine mechanisms and metabolic interrelations..... A-1156
Adrenocortical function A-1217
Electron microscopy of islet cells in diabetes..... A-1226
Mammalian pituitary gland fractions..... A-1228
Glucagon effects on metabolism in rat diaphragm A-1266
The assay of insulin in blood A-1287
Metabolic effects of hormones..... A-1362
Endogenous anti-inflammatory agents..... A-1563
Effects of corticosteroids and growth hormone..... A-1573
Metabolic factors of the pituitary A-1788
Effect of tolbutamide on glucose utilization A-1847
Cortisone induced changes of the exocrine pancreas..... A-2203
Growth hormone and carbohydrate metabolism A-2244
Effect of drugs on human intermediary metabolism A-2563
Mechanism of action of prolactin A-2691
Metabolic and endocrine aspects of growth A-2970
Assay of human hypophyseal hormones and inhibitors A-3004
Biological substances which induce ovulation A-3125
The metabolic action of pituitary fractions A-3150
Hormonal control of amino acid transport into cells..... A-3709
Studies on the physiology of growth hormone A-3754
Study of the pituitary gonadotropic hormones A-3758
Hormones and the metabolism of adipose tissue..... A-3771
Metabolic and growth promoting effects of hormones..... A-3870
Metabolism in cartilage mucopolysaccharide synthesis A-3967
Effects of insulin and other hormones on mitochondria A-4045
Studies on growth hormone..... A-4080
Regulation of glucose metabolism in muscle..... A-4082
Rat connective tissue chemistry--diet and hormones A-4085
Regulatory processes in growth and metabolism of bone A-4225
Growth hormone effects on metabolism of cartilage A-4235
Immunologic studies on protein hormones..... A-4289
Mucopolysaccharide metabolism A-4315
Pathogenesis of fatty cirrhosis in the rat A-4367
Hormonal control of metabolism in adipose tissue A-4411
Anabolic actions of adenohypophyseal hormones..... A-4521
Metabolic studies on bovine ketosis A-4927
Studies on the physiology of growth hormone..... A-5655
Endocrine influencing centers in the hypothalamus..... B-708
Mechanisms of neural control of metabolic functions..... B-834
Thyroid status and neuromuscular function..... B-1510
Studies on inherited metabolic and endocrine patterns..... C-1995
Induced mammary rat cancer--prevention and treatment CY-2590
Cell growth and protein-nucleic acid metabolism C-3656
Clinical investigation of cancer CY-3809
Effect of hormones on mammary gland in organ culture CY-4420
Evaluation of humoral factors in liver regeneration C-4956
Production of hyaluronate in stroma of breast cancer C-5417
Growth rate analysis of suspended plant cell cultures C-5714
Growth promoting substance in pregnant rat plasma G-4965
Biochemical studies of insect growth and metamorphosis G-6101
Metabolic effects of growth hormone in man..... G-7402
Plant-microbe interrelationships in non-legumes G-8577
Mechanisms in the secretion of aldosterone..... H-2716
Interdisciplinary research on aging..... H-3173
The cause of dissecting aneurysms of turkeys..... H-3776
Research and training in new drug development H-4789
Heart disease, diet and lipid metabolism in pygmies..... H-5651

GROWTH INHIBITORS

Electrolyte exchanges in yeast A-2051
Calcification and metabolism of bone grown in vitro A-3184
Vitamin C as an anti-growth agent in tissue growth A-3925
Syntheses and biological studies of folic acid analogs A-4060
The site and mode of action of urethan .. CY-3110
Experimental chemotherapy of cancer.... CY-3192
Potential growth inhibitors and radiation protectors CY-3751
Biophysical studies of cancer C-3811
Natural plant inhibitors on mammalian malignancy..... CY-3904
Cells and nondestructive viruses C-4360
Production and investigation of limonin.. CY-4709
Isolation growth inhibitor specific for tumor cells CY-4870
Role of glycolysis in tumor growth CY-4910
Cellular organization and growth in Chlorella..... C-4932
Chloroleukemia in the rat C-5691
Studies of the dormant tumor cell C-5716
Antibiosis and interaction among oral microorganisms..... D-799
Recovery of viruses from oral tissues..... D-907
Antimicrobial substances in saliva and oral tissues..... D-1201
The pathogenesis of fungus infections.... E-861
Cytopathogenic agents in respiratory disease E-1131
Induced mutations in bacteria..... E-1240
Tellurite blockages and constitution of streptococci E-1994
New agent for control of staphylococcic infections E-2556
Study of continuous microbial culture..... E-2615
Control of bacteria in poultry products.... E-2664
Electron transport in anaerobes E-3046
Influence of anthocyanins on microbial activities E-3156
Mannitol and lactate metabolism of staphylococci E-3197
Genetics of Newcastle disease virus E-3203
Effect of milk antibody on staphylococcal infection E-3240
Staphylococcus aureus as a competitor ... E-3326
Assay of the biological activity of lichen substances E-3431
Effect of ageing on susceptibility to virus infection..... E-3448
Bacterial polymer synthesis and polyol metabolism E-3548
Kinetics of bacterial growth in continuous culture E-3588
Physiology and nutrition of plant parasitic nematodes E-3808
Inhibition of coliphage synthesis by 5-fluorouracil E-3865
Mechanisms of action of antifungal drugs E-4075
Biology and chemistry of plant resistance to insects G-5093
Biochemical studies of insect growth and metamorphosis G-6101
Natural growth substances in arrested growth G-6682
Properties of gibberellins from flowering plants G-7065
Energy expenditure and metabolic regulation..... G-7275
Physiology of insect photoperiodism G-7557
The effects of fluorides on basic plant processes S-76

GUAM

See under Demography

GUANAZOLO

See 8-Azaguanine

GUANETHIDINE

Chemotherapy of hypertension H-720
Relation of catechol amines to human hypertension H-5665

GUANIDES

See Chlorguanide
See Phenethylbiguanide

GUANIDINES

See also Guanethidine
See also Methylguanidine
See also Nitrosoguanidine
See also Phenethylformamidinyl iminourea
Specificity studies on purified cathepsin B..... A-1552
Guanidinium compound metabolism A-2731
Metabolism of guanidine compounds in mammals A-3658
Enterodialysis with dialysing tubing H-2363
Studies on the formation of insoluble fibrin..... H-4385

GUANIDINES DERIVATIVES

Factors affecting mitochondrial physiology..... C-4715

GUANINES

See also Azaguanine
See also 6-Selenoguanine
See also Thioguanine
Histochemical study of growth and neoplasia..... C-558
Biophysical chemical investigations of nucleic acids C-2170

GUANINES ANALOGS

Guanine metabolism in Erymothecium ashbyii..... E-3773

GUANOSINE

See also Thioguanosine
Intermediary metabolism of the 6-deoxyhexoses A-2963

GUANOSINE NUCLEOTIDES

See Guanosine phosphates

GUANOSINE PHOSPHATES

See also Guanosine monophosphate
See also Guanosine triphosphate
Effect of guanine nucleotides on stress responses A-4714

GUANOSINE TRIPHOSPHATE

Adenosine triphosphate metabolism in the erythrocyte A-2655
Biosynthetic mechanisms C-3159
Nervous system and behavior..... MY-1379

GUANYLIC ACID

See Guanosine monophosphate

GUATEMALA

See under Demography

GUILLIAN-BARRE SYNDROME

See Encephalomyeloradiculoneuritis

GUINEA PIGS
(Compilation available on request)

GULF COAST
See under Demography

L-GULONOLACTONE
Carbohydrate metabolism in animal tissues....A-4882

L-GULONOLACTONE ANALOGS
Metabolic studies with vitamin C....A-4724

GULONOLACTONE OXIDASE
See under Oxidases

GULONOLACTONE OXIDASE INHIBITORS
See under Antienzymes

GULOSE
Intestinal absorption of carbohydrates....A-4967

GUTHION
Metabolic studies of insecticides....G-4066

GUTTIFERAE
See under Medicinal plants

GUTTMAN RATING SCALE
Guttman scales of student attitudes....M-4045

GYMNOSPERMS
Auxin and carbohydrate metabolism of gymnosperm tissues....G-7291

GYNECOMASTIA
Gynecomastia and estrogen metabolism in the male....A-4134
Comparative study of 19-nortestosterone derivates....G-5162

GYPSUM
Crystallographic study of dental gypsum.. D-842
Program of research in dental materials...D-1057

GYRODACTYLUS
See under Trematodes

HABENULA THALAMI
See under Brain

HABIT
Influence of diet on metabolic processes.. A-193
Studies of cortical-subcortical cerebral functions....B-2978
Normal and abnormal renal and body-fluid physiology....H-5155
Experimental study of behavior without awareness....M-1206
Effects of stimulant and depressant drugs....MY-2612
Reinforcement of verbal behavior.... M-3002
Interaction of habit strength and drug effects....MY-3238
The determinants of amount of reinforcement.... M-3328
Neural mechanisms of behavior....MY-3732
Generalized cue value of drive stimuli... M-4657
Human neonatal habituation and conditioned arousal.... M-4927
Retention and interference processes....M-4993
Additivity of habits based on shock and thirst....M-5313

HAEMOBARTONELLA
See under Rickettsia

HAEMOGREGARINA
See under Protozoa

HAEMONCHUS CONTORTUS
See under Nematodes

HAEMOPROTEUS
See under Protozoa

HAGEMAN FACTOR
See under Blood coagulation

HAIR
See also Alopecia
See also Hirsutism
Effect of hormones on the ground substance....A-2233
Effect of ambient temperature on rate of aging in rats.... A-2308
Hair and skin cycles as related to radiation....CY-592
Dynamics, fine structure, biochemistry of melanocytes....C-5401
Histophysiology of the skin of man and other primates....G-2125
Fluorescent substances in psoriasis scales and hair....G-6868

HAIR FOLLICLE
See also Mange
Effects of x-irradiation on hair follicles..G-5813

HAITI
See under Demography

HALFWAY HOUSE
The operation and structure of a halfway house.... OM-454

HALIDES
See also Amine hydrohalides
See also Aryl halides
See also Bromides
See also Chlorides
See also Fluorides
See also Iodides
Complexation studies by nuclear magnetic resonance....A-4094
Synthesis of halogen analogs of biological compounds....CY-4104
Novel heterocyclics for cancer chemotherapy studies....CY-4298
Absolute configuration and dynamic stereochemistry....G-7771

HALISTERESIS
Dynamics of bone aging.... A-2298

HALLUCINATIONS
See also Fantasy
Hallucinatory behavior of normals and schizophrenics....MY-3253
Visual functions in the schizophrenic...MY-4579
Neurophysiological correlates of psychotic behavior.... M-4808
Stress and hallucination in perceptual isolation....M-4847

HALLUCINOGENS
See also Bufotenine
See also Cannabinols
See also Ditran
See also LSD
See also Mescaline
See also Psilocybin
Influence of the amygdaloid complex on behavior....B-1680
Pharmacological studies on isolated cerebral cortex....B-2647
Time sense in normal and psychopathologic states....MY-1121
Effects of tranquilizing drugs on central nervous system....MY-1665
Humoral agents in cerebral activity.... MY-1902
Studies with new hallucinogens.... MY-2302
Interaction of neurohumors and LSD congeners in CNS.... MY-4773

HALOACIDS
See also Chlorinated phenoxyacetic acid
See also Fluorinated amino acids
See also Fluoroacetates
See also Fluoroorotic acid
See also Hydrochloric acid
See also Iodoacetate
See also Perchlorate
Fluorinated compounds from carbinols...CY-5079
The chemistry of bicyclic acids and their derivatives....CY-5406
Photochemistry of carbonyl group containing molecules....G-7487
Absolute configuration and dynamic stereochemistry....G-7771

HALOGENATED HYDROCARBONS
See also Chlorinated hydrocarbons
Metabolic alterations in drugs.... B-384

HALOPURINES
Hydrogen bonds in fluoro-substituted aromatic systems.... CY-4315

HALOPYRIMIDINES
Hydrogen bonds in fluoro-substituted aromatic systems.... CY-4315

HALOTHANE
See Bromochlorotrifluoroethane

HALSTEAD BATTERY
Validation and normative studies of Halstead battery....B-2416
Age validation of the Halstead battery of tests....B-2426

HAMSTERS
(Compilation available on request)

HAND
See also Dupuytren's contracture
See also Fingers
Electromyographic kinesiology of the hand....B-2795

HANDBOOK
See under Publications

HANSEN'S DISEASE
See Leprosy

HANSENULA
See under Yeasts

HAPLOSPORIDIA
See under Protozoa

HAPTENS
See under Immunology

HAPTOGLOBIN
Studies on familial Mediterranean fever...A-2857
Metabolism of serum haptoglobin....A-5141
Reticulo-endothelial functional tests in human....E-3014
Electrophoresis of antigens in an antibody medium....E-3473
Genetic studies on the blood of primates..G-6053
Studies in human biochemical genetics...G-6892
Metabolic effects of hepatic anoxia.... H-613
Erythrokinetics....H-2994
A study of inherited serum proteins....H-5780
Problems in erythrokinetics....H-6126

HARDNESS
Reactions of dental silver amalgams....D-1048
Program of research in dental materials...D-1057

HARELIP
Development of the palate and lip in mice.... D-768
The oral health of Icelandic people.... D-865
Effects of surgery on lip mass, form and function.... D-913
Lip and cleft palate defects....D-1012
Oral musculature....D-1068
Cleft palate—an interdisciplinary program....D-1244
Effect of oral orthopedics preceding repair of clefts of the lip....D-1418

HARMONIC DISTORTION
See under Hearing

HARTMANELLA
See under Protozoa

HARVEST-AID CHEMICALS
Harvest-aid chemical residues in cottonseed....G-7820

HATCHING MUSCLE
See under Muscle

HAWAII
See under Demography

HAY FEVER
Allergy of the respiratory tract E-2638
Serology of the atopic state E-2639
Effectiveness of hyposensitization therapy E-2995

Seasonal hay fever

Allergic reaction phenomena in human blood E-1924
Value of hyposensitization in pollenosis .. E-3370

HAZARD
See Occupational hazards

HEAD
See also Cephalometry
See also Face
See also Jaws
See also Skull
Analysis of human congenital cephalic malformations B-965
Selective head cooling B-2342
Vestibular and auditory changes in head trauma B-2625
Evoked potentials and behavioral change in the human B-2834
Significance of post-radiation changes in cells C-3019
A study of the head and face of the American Negro child D-331
Lymphatic flow in the head and neck D-546
Longitudinal growth studies on anomalies of the head D-1064
The cranial and cervical vasculature of the pigeon H-5620

HEAD INJURY
See under Injury

HEAD MOVEMENT
Physiological and pathological effects of vibration G-5348

HEADACHE
Biochemical lesions and psychopathology M-4694

Migraine

Headache mechanisms--water and electrolyte balance B-754

HEALING
See Injury, Wound healing
See Regeneration

HEALTH

Neurology of temporal lobe and reticular system B-801
Electrophysiological studies of the auditory system B-896
Investigation of temporal lobe epilepsy ... B-1158
Physiological studies of the auditory system B-1344
Graphic studies in tone and tremor in neurologic states B-1421
Functional capacities of decorticated primates B-1460
EEGs and cortical evoked responses of human infants B-1558
Investigation of the sound transmission in the ear B-1559
Central connections of auditory system ... B-1631
Electrophysiologic tests of hearing B-1796
Electrodermal responses associated with hearing B-1829
Studies in psychoacoustics B-1854
A critical evaluation of audition in the aged B-1908
Training and testing in speech and hearing B-1934
Physical determinants of complex-tone pitch B-2052
Determination of sensory abilities in animals B-2111
The effects of anesthetics upon responses B-2125
GSR measurement of hearing discrimination in children B-2126
Central neural mechanisms of hearing B-2161
Conservation of hearing in children B-2375
Neural mechanisms in acoustic perception B-2482
Neural basis of visual and auditory fusion in monkey B-2681
Sensory feedback influences on motor activity B-2699
Measuring phonation of adult and geriatric populations B-2715
An investigation of functional hearing loss B-2741
Eighth nerve dysfunction in neurological disorders B-2779
Effect of auditory fatigue upon discrimination B-2803
Auditory training and subjective hearing aid efficiency B-2805
Auditory lateralization and the Weber test B-2806
Early and late brain lesions and audition in the cat B-2848
Effect of high intensity noise on inner ear B-2878
Acoustic differentiation of middle ear pathologies B-2880
Hearing and neonatal hyperbilirubinemia .. B-2882
CNS response to binaural stimulation B-2941
Acoustical communication in aquatic organisms B-3241
Conference on research potentials in voice physiology B-3252
Temporal bone laboratory B-3339
Physiology of insecticide resistance E-947
Statistical properties of aphasic language M-1802
New measures of aphasic symptom variables M-4187
Sensory thresholds in schizophrenic patients M-4517
Behavioral analysis of sensory neocortex M-4849

Binaural hearing

Brain function in the localization of sound in space B-2170
Auditory lateralization and the Weber test B-2806
Effect of aging on ability to localize sound in space B-2817
Localization and interaural spectrum disparity B-3229

Bone conduction

Alterations of cochlear potentials B-682
Cochlear hydrodynamics B-1909

Harmonic distortion

Cochlear hydrodynamics B-1909

HEARING AIDS
Studies in psychoacoustics B-1854
Response of non-language children to training B-2353
Auditory training and subjective hearing aid efficiency B-2805

HEARING TESTS
See also Audiometry
See also Weber test
Correlation of inner ear pathology and function B-1832
Masking efficiency in normal and impaired ears B-2035
Relations among after-effects of acoustic stimulation B-2157
Assessing handicap due to hearing impairment B-2988
Automatic tracking for quantitative determination of recruitment B-3039
Localization and interaural spectrum disparity B-3229

HEART

Physiological stress in natural populations H-2833
Serum lipoprotein changes in outpatients H-3079
Lipemia clearing factor in fat metabolism H-3131
Factors which modify the actions of digitalis H-3585
Role of the ground substance in vascular lesions H-3990
Study of senescence at the cell level H-4178
Studies of vascular physiology in living human skin H-4192
Patterns in experimental circulatory dysfunctions H-4227
Studies on coronary artery disease among the Bantu H-4244
Cardiac output and blood pressure H-4279
Age modification of endocrinologic and stress reactions H-4327
Clearing factor, lipid metabolism and atherogenesis H-4372
Studies on experimental glomerulonephritis H-4410
Adjustment to steroid-induced sodium retention H-4421
Radioisotopic magnesium studies in heart disease H-4551
Studies of lipid release by adipose tissue H-4569
The control of the slow waves of the plethysmogram H-4840
Physiological studies on the isolated perfused kidney H-4868
Effect of electrolytes and hormones on the adrenal gland H-5069
Localization of substances in the nephron H-5254
Induction of lipoid material in endothelial cells H-5261
Hormonal effects of lipid metabolism H-5282
A comparative study of heart function H-5390
Lipogenesis from glucose in the intact rat H-5468
Uterine hemodynamics and contractility during pregnancy H-5891
Steroidal hormone relatives--hypotensive amines H-5915
Fine structure of glomeruli and Purkinje fibers H-5946
Relationships between coagulability and thrombosis H-6128
A biophysical study of phasic splanchnic blood flow H-6129
Endocrine influence on experimental atheromatous lesions H-6161
Adaptations of the bat to hibernation and flight H-6260
Cardiovascular clinical research center ... H-6286
Center for research upon blood H-6302
Clinical heart center H-6304
The factors determining cardiac output in man H-6414
Investigation of variables affecting avoidance behavior MY-487
Adrenal glands and emotional behavior ... M-1298
Psychosomatic studies of anxiety M-1442
Chemical stimulation of local brain areas MY-1951
Psychobiological studies of behavior M-2271
Pharmacology of motivational mechanisms MY-2839
Determinants of species-specific behavior M-4000
Neurohormone changes under stimulus deprivation MY-4496

HORMONES ANALOGS

Seco steroids A-5183
Products related to medicine CY-1696
Synthesis of D-homosteroids and 18-norsteroids CY-3091
Chemotherapy of cancer, including leukemia CY-3335
Structure and activity of biologically active proteins C-3974

HORMONES STANDARDIZATION

Preparation of human pituitary gonadotropin standard A-2461
Diethylstilbestrol treated chickens C-4227
Endocrine effects of gonad-adrenalectomy in women CY-4240

HORSE GAMMA GLOBULIN

Immune response in the chimpanzee E-4072

Machine teaching of reading in retarded children M-4786
Production of alcohol addiction in experimental animals M-4814
Free-response variations in discrete-trials learning M-4991
Performance after ingestion of depressant drugs MY-5065
Experimental tests of computer model for perception M-5597
Medical audit plan for psychiatric hospitals OM-1
New techniques for training and rehabilitation OM-688
Adsorption of contaminant gas mixtures from air S-60
Basic study of air pollution control wet-scrubbers S-84
Studies of heterogeneous odorant systems S-92

INSTRUMENTATION-METHODOLOGY

Amino acids in plasma and kidney of uremic animals A-1979
Isotopic methods for in vivo study of fat metabolism A-2131
Rapid nutritive evaluation of processed vegetables A-2714
The renal transport of urate in normal man and in gout A-2727
Chromatography for aldosterone and adrenal steroids A-3148
Tyrosyl hydrogen bonds in globular proteins A-3306
Application of x-ray techniques to osteological study A-3549
X-ray fluorescence studies of biological materials A-3751
Improved approaches to new steroid hormones A-3753
Polymerization of synovial fluid hyaluronic acid A-3783
Assay of steroids in urine and blood A-4262
Peptic bond interactions A-4350
Study of hippurate synthesis and excretion kinetics A-4370
Anion metabolism in patients forming renal calculi A-4546
New technique for the separation of steroids A-4634
Femoral arteriography in hip fractures A-4640

(contd)

INSTRUMENTATION METHODOLOGY (contd)
Fluorometric measurement of biological materials A-4720
Biochemical evaluation of nutritional status A-4731
The chemical determination of blood estrogens A-4752
Fractionation of gastric juice in disease states A-4775
Application of gas chromatography to steroid analysis A-4906
Use of infrared spectroscopy in clinical analysis A-5167
Depth of focus of the human eye B-1637
Acoustic differentiation of middle ear pathologies B-2880
Ultrasonic techniques in ophthalmology B-2966
Cineradiographic diagnosis of neurological diseases B-3151
Cerebral vascular studies with radioactive techniques B-3568
Action and nature of active principles of Lithospermum C-2415
Modifying human skin radiosensitivity by drugs C-2443
Serum protein studies C-3127
Enzyme rates of homogenates containing whole cells C-3921
Hyperplasia induced by ultraviolet radiation C-5488
NMR- and EPR- spectroscopy CY-5528
Cancer therapy with radioyttrium Y-90 filaments C-5613
Reversibility of incipient dental pathology D-662
Calcification time of enamel, dentin and bone D-1391
Oxygen in waste treatment G-3720
Poison isolation and identification G-4372
Sludge digestion analysis by gas chromatography G-4945
Biophysical studies of macromolecules and viruses G-5177
Sampling designs for field studies G-6032
Solubility of oxygen in pure and natural waters G-6389
Aspects of deep trickling filters G-6408
Chemostat culturing of marine phytoplankton G-6427
Fundamental factors in treatment of iron-bearing waters G-6436
Analytical methods for nitrogen oxides G-6495
Continuous measurement and recording of B.O.D. data G-6614
Determination of low-level radioactivity in water G-6837
Cinefluorographic cystourethrography G-7163
Flow and heat transfer with liquid food products G-7311
Ion exchange for high-order decontamination G-7518
Absolute configuration and dynamic stereochemistry G-7771
Polarographic studies in normal and traumatized bone G-7871
Pesticide residue determinations by gas chromatography G-7890
Cytochemical studies--nucleic acids and proteins G-7896
Trace analysis methods for air pollution studies G-7992
Replantation of amputated limbs G-8014
New methods in ambulatory patient care G-8034
The electrical properties of ampholytes G-8121
Studies on the theory and practice of histochemistry G-8139
Microscopic identification of particulate dusts G-8251
Analysis of trickling filter-experimental model G-8300
Cytochemical and morphological analysis of nutritive cells and spermatids G-8327
Quantitative spectral reflectivity of the skin G-8439
Engineering bioassay development G-8455
Stereochemical studies of polypeptides and proteins G-8520
Study of automatic teaching in medical education G-8539
Ballistocardiography in heart diseases H-327
Pathogenesis of arterial lesions H-655
Chemotherapy of hypertension H-720
Spread of electrical activity in the mammalian ventricle H-1315

Visna—slow demyelinating leucoencephalitis of sheep B-2425

LEUKOPLAKIA
Studies in oral leukoplakias D-1358

LEUKOPOIESIS
See under Hematopoiesis

LEUKOPOIETIN
Possible role of viruses in etiology of cancer C-4534
Biological and clinical studies of erythropoietin H-3357

LEVULOSE
See Fructose

LH
Nutritional and hormone factors in joint diseases A-22
Action of growth hormone in primates A-292
Hypophyseal growth hormone A-381
Neurohumoral control of ACTH secretion .. A-1236
Physiology of the plasma 17-ketosteroids A-1747
Hepatic metabolism and estrogens in late pregnancy A-2221
Physiology of secretion of luteinizing hormone - LH A-2544
The chemistry of luteinizing hormone A-3033
Biological substances which induce ovulation A-3125
Endocrine basis of cyclic reproductive behavior in hen A-3417
Characterization of human pituitary gonadotropin A-3448
A method of assay of small quantities of estrogens A-3452
Neural and hormonal regulation of lactation A-3637
Study of the pituitary gonadotropic hormones A-3758
An endocrine survey of the polycystic ovary syndrome A-3759
Neuro-secretions of the hypothalamus A-3790
Synthesis of androgenic steroids A-4330
LH bioassay by zinc 65 uptake by dorsolateral prostate A-4622
Neural factors controlling reproduction in sheep C-3685
Endocrine effects of gonad-adrenalectomy in women CY-4240
Chemotherapy in gynecologic cancer CY-5260
Purification and study of pituitary gonadotrophins G-2154
Pituitary lactogenic hormone G-4097
Cytophysiology of pituitary gonadotrophic cells G-4723
Studies of hormones transported by human plasma G-5525
A study of the pituitary-corpus luteum relationship G-5526
Mechanism of asynchrony of male sex glands in bats G-6599
Endocrine interelationships in female reproduction G-6949
Ovarian differentiation in vitro G-6976
The hormonal control of ovarian abnormalities G-7184

LH RELEASING FACTOR
Purification of hypothalamic and placental hormones A-5051

LIBRIUM
Anticonvulsants in chronic epilepsy in the monkey....B-3243

LICE
Identification of the sucking lice of the United States....E-2117

LICHENS
Assay of the biological activity of lichen substances....E-3431
Survey of lichen substances--potential medicinals....G-8345

LIDOCAINE
Anticonvulsants in chronic epilepsy in the monkey....B-3243

LIE DETECTION APPARATUS
See Polygraphy

LIFE CYCLE
Studies of bacterial structure....D-448
Behavior of larval and adult mosquitoes....E-528
Nutrition of insects....E-533
Trematode life cycles and trematode diseases....E-572
A study of coccidioidomycosis in animals....E-682
Oxygen consumption of trematodes....E-700
Parasitism involving the snail....E-867
Relationships between cacti and desert arthropods....E-874
Behavior of schistosome miracidia and cercaria....E-942
Schistosomes in the Pacific Northwest....E-950
Bionomics of ticks....E-1006
Host cellular response to larval development....E-1026
Carbohydrate metabolism in insects....E-1028
Haemoproteus metchnikovi in the turtle....E-1200
Life history studies of ixodid ticks....E-1273
Functional microchemistry of trematodes....E-1319
Analysis of migratory behavior....E-1408
Taxonomy of the Plecoptera....E-1442
Comparative analysis of gregarious behavior....E-1492
Pathogenesis of ectoparasitic infections of fish....E-1619
Studies on epidemiology and immunology of schistosomes....E-1893
Cellular differentiation in microorganisms E-1916
Study of insects as a cause of respiratory allergy....E-1923
Parasites of Penaeus duorarum, the pink shrimp....E-2008
Studies of Nocardia asteroides isolates....E-2075
Metabolism of Endamoeba histolytica in vitro....E-2339
Exoerythrocytic development of malarial parasites....E-2372
Immunity to coccidiosis in calves....E-2374
Bionomics and ecology of Culex salinarius coquillett....E-2425
Studies on schistosomiasis....E-2459
Multiplication of an insect polyhedron virus....E-2462
Host-parasite relationship of schistosomes....E-2500
The granary mites of the Pacific Northwest....E-2502
Development of Trichinella spiralis larvae to adults....E-2702
Studies on plerocercoids infecting salmonid fishes....E-2759
Life cycle study of Nematobothrium texomensis....E-2849
Strongyloides in the pregnant and newborn host....E-2894
Biochemical genetics of Trypanosoma cruzi....E-2915
A study of sporogony in the development of Theileria....E-2950
Study of host-parasite relationships....E-3128
Intra-molluscan development of Hawaiian heterophyids....E-3173
Studies on parasitic helminths in wild mammals....E-3209
Effect of drugs on trematode miracidial development....E-3213
Ecology of Rocky Mountain spotted fever....E-3218
Ecology of vectors and reservoirs of Trypanosoma cruzi....E-3307
Trematodes encysted in Louisiana crayfishes....E-3386
Biology and morphology of Demodex....E-3412
Studies on endoparasitic trematodes....E-3443
Host-contaminant biology of muscoid flies....E-3498
Natural history of a salmon poisoning Rickettsia....E-3606
Life cycles in the genus Proterometra....E-3654
Studies on the biology of Toxoplasmalike organisms....E-3781
Spores of food spoilage clostridia....E-4009
Taxonomic and ecologic studies of Hydracarina....E-4146
Individual differences in growing human beings....G-546
Nucleic acid metabolism in Amoeba proteus....G-6317
Electron microscopy in experimental morphogenesis....G-6943
Nematode parasitism of black flies--Simulium Diptera....G-7556
Genetic aspects of radiation induced aging....G-7607

LIFE SAVING
See Resuscitation

LIFE SPAN
See also Longevity
Carbohydrate metabolism in the newborn..A-1387
Physiology of leukocytes....A-1505
Pathogenesis of nutritional cirrhosis....A-1519

MAST CELLS
Role of amines in pathogenesis of collagen diseases A-637
Sulfated mucopolysaccharides and resistance..... A-3407
Cellular source (mast cells) of gastrin.... A-3979
Electron microscopy in experimental pathology..... A-4165
Carbohydrate metabolism--intracellular control A-4715
Fluorometric measurement of biological materials A-4720
Host metabolism and fibroblastic reaction to injury A-4745
Amine release in ocular tissues B-1951
Intra-ocular dynamics and glaucoma..... B-2591
Quantitative cytochemical studies of the cell..... C-3082
A study of inflammatory reactions..... C-4117
Quantitative cytochemical studies of cell growth C-4716
Metabolism of hexosamines..... C-5119
Eosinophile stimulating substances in RBC stroma E-3296
Techniques for quantitative histochemistry G-3911
Metabolism of mucopolysaccharides..... G-4761
Biosynthesis of hyaluronic acid H-311
Tissue heparin, the thyroid and atherosclerosis..... H-1596
Quantitative histochemistry of the vascular system H-2028
Experimental early endocarditis H-2190
Study of mast cells and basophil leukocytes..... H-2456
Electron microscopy of the cardiovascular system..... H-2490
Mechanism of vascular reaction to injury.. H-3174
Cardiovascular aspects of magnesium deficiency..... H-4849

MAST CELLS NEOPLASMS
Studies of an acid lipid substance, SRS, in mast cells A-4063
Studies in cancer chemotherapy..... CY-2903
Immunohistology of diffusible components of cells C-4521

(contd)

MAST CELLS NEOPLASMS (contd)

Factors in radiation sensitivity of tumors C-4845
Mast cell response in skin carcinogenesis of mouse C-5439

MASTICATION

See under Dentistry

MASTITIS

Characterization of human and animal micrococci E-2132
Studies on bovine staphylococcal mastitis E-3547
Bovine penicillactia after intramuscular injection E-3703
Viruses as a cause of mastitis in cattle ... E-3755
Comparative study of 19-nortestosterone derivates G-5162

MASTOCYTOMA

See Mast cells neoplasms

MATALON TECHNIQUE

See also Surface properties
Adsorbed films of globular proteins A-4348

MATERNAL BEHAVIOR

Study of perinatal factors in child development BP-2356
Collaborative study of cerebral palsy BP-2366
Specificity of gene action upon growth processes C-281
Nursing in maternity and newborn care .. GN-4812
Reproductive behavior and physiology of fish G-4958
Maternal behavior in the rabbit G-6263
Effect of infantile experiences on adult behavior M-1187
Effect of maternal maturity on child development M-3325
Maternal behavior in lower mammals M-3398
Social behavior in psychopharmacological screening MY-3963
Determinants of species-specific behavior M-4000
Maternal attitudes and children's school achievement M-4463
Psychological factors in production of gastric ulcers M-4704
Maternal behavior in Macaca nemestrina M-4757
Early experience and learning in the Tryon strains M-5592
Psychological effects of adoption 3M-9077

MATERNAL-FETAL

See also Pregnancy, Placental
A multidisciplined experimental study of diabetes A-1659
Relation of blood ammonia to pregnancy toxemia A-2226
Unsaturated fat, placental senility and the fetus A-3879
Human adrenal gland fetal zone functions A-4373
Metabolic errors of thyroid metabolism ... A-4499
Maternal-fetal endocrine interrelations in the monkey A-5654
Congenital blindness B-876
Mechanisms of genetically controlled abnormal development B-931
Longitudinal study of the etiology of cerebral palsy BP-2363
Study of perinatal deficits B-2365
Studies on the pathogenesis of cerebral palsy BP-2390
Factors affecting the neurological status of children BP-2404
Collaborative studies in cerebral palsy ... B-2406
Multidisciplinary investigations on cerebral palsies B-2408
The clinical evaluation of fetal heart rate BP-3120
Role of nutrition in the development of bones and teeth D-204
Homo- and heterografts after whole body irradiation E-1361
Maternal infection and its influence in the newborn E-1913
Study of C. albicans hemagglutination test E-2624
Maternofetal passage of antibody-making cells E-2925
Blood group substances in human tissues E-3554
Prenatal influences in fetal development .. G-4194
Developmental anomalies and genetics constitution G-4636
Teratogeny in maternal vitamin E deficiency G-4993
Studies on interaction of environmental influences G-5300
Prolonged gestation in Holstein and Guernsey cows G-5784
Regulation of fetal fluid and acid-base environment G-6584
Prenatal influences on susceptibility to kernicterus G-7014
Immunological studies in normal and abnormal pregnancy G-7669
Factors controlling the efficiency of reproduction G-7706
Pathology associated with bovine dwarfism H-3264
Leukoagglutinins and transfusion reactions H-3365
Improvement of fetal heart rate meter H-3678
Maternal and fetal aspects of placental circulation H-3837
Maternal-fetal relationship in the human placenta H-4792
Detecting and preserving rare blood H-5006
Meperidine distribution in parturient and neonate H-5934
Psychosomatic phenomena in animals ... M-3655

MATHEMATICAL MODELS

Metabolism of plasma proteins A-2803
Investigation of the sound transmission in the ear B-1559
Functional organization of the central nervous system B-1865
Physical determinants of complex-tone pitch B-2052
Microelectrode investigation of the epileptiform spike B-2080
Dynamics of the visual system B-2165
On the nature of anomalous retinal correspondence B-2442
A servoanalytic study of the myotatic reflex system B-2580
Sequential allocation of patients in clinical trials CY-4968
Application of topology to general biology G-5181
Computer programs for water quality problems G-6519
Analysis of trickling filter behavior G-7553
Physical biology of waste treatment G-7749
Statistical association of air pollution and health G-8043
Analysis of trickling filter-experimental model G-8300
Regulation of pulmonary ventilation H-1626
Mathematical theory of electrocardiography H-2263
Mathematical analysis of indicator-dilution technics H-4664
Factors influencing responses to ambiguous stimuli M-2170
Human psychophysiology research methodology MY-2950
Immediate memory and predicting M-3196
Experimental studies of multiple choice learning M-3342
The paramorphic representation of clinical judgment M-4439
Humoral patterns and their psychological correlates M-4807
Clinical inference and cognitive processes M-4977
The repeated measurement design in psychopharmacology MY-5504
A model for predicting recall of repeated words M-5540

Pleuropneumonia organisms and L forms in arthritis A-2255
Alterations in sterols within the animal...A-3631
Study diseased synovia and synoviums in horses A-4756
Molecular antagonism in congenital abnormalities.....B-1960
Studies on bacterial toxins CY-2976
Electron microscopy of normal and neoplastic cells.....C-4108
Isolation and screening of anticancer antibiotics CY-5085
Studies of bacterial structure D-448
Study of non-branching filamentous mouth organisms D-459
Amino acid decarboxylases of oral lactobacilli D-476
The bacteriology of periodontal disease... D-579
Antibiosis and interaction among oral microorganisms D-799
Aetiology of aphthous lesions of the mouth D-1331
Histochemical studies of infected cultured cells E-365
Bacterial resistance to antibiotics in vivo E-451
Biological properties of tubercle bacillus fractions..... E-646
Intracellular bacteriods of cockroaches E-961
Host-parasite relationships in tissue culture E-1023
Population changes of bacterial pathogens E-1137
Effect of electrolyte on cell constituents..E-1197
Immunization of animals by systemic mycotic fungi E-1292
Establishment of type species in the genus Bacillus E-1353
Normal and abnormal growth in bacteria...E-1391
Biosynthesis of porphyrins.....E-1465
Study of attenuated strain of poliomyelitis virus.....E-1799
Sexual hormones of Achlya ambisexualis.....E-1856
Form variation in Salmonella pullorum....E-2318
Interconversions among PPLO, L forms and bacteria E-2332
Incidence and types of leptospirosis in wild mammals.....E-2348
Studies on so-called atypical acid-fast bacilli.....E-2357
Pulmonary disease and atypical acid-fast bacilli E-2377
Bacteriophage therapy on staphylococcal infections E-2385
Non-hospital carriers of resistant staphylococci E-2429
Microflora of the intestine of Ascaridia galli E-2607
Effect of DNA on tubercle bacilli E-2699
Intestinal flora and resistance to enteric infection.....E-2722
Study of disease producing capacities of enterovirus E-2784
Molecular transformations of antibiotics by molds E-2895
Physiological study of in vivo grown Mycobacterium tuberculosis E-2936
Metabolism of non-cultivable mycobacteria E-2998
Biochemistry of the sheath of Sphaerotilus natans E-3237
Drug-resistant tuberculous infections in children E-3263
Environmental effect on respiration of mycobacteria..... E-3324
In vitro culture of Schistosoma mansoni...E-3532
Structural changes in M. leprae and other mycobacteria.....E-3546
Studies on Brucella abortus E-3561
Metabolic pathways in the micrococci E-3565
The pathogenic action of Clostridium chauvoei E-3589
Inducers of sporulation in Clostridium roseum E-3590
Anthelmintic resistance in parasitic nematodes E-3611
Further studies of Haemobartonella canis and felis E-3723
Study of the replication of viruses E-3823
A study of hospital infections due to Aerobacter E-3940
Vitamin K5 as a food preservative G-5838
Spore germination and fructification in Psilocybe G-5891
Study of Beggiatoa species G-6150
Role of nucleic acids in synchronous cell division G-6461
Microbial metabolism of mevalonic acid...G-6468
Submerged culture production of alkaloids..... G-6645
Development of bio-assay techniques on air pollutants.....G-7692
Growth studies in the thallotron G-8157
Effect of loading on assimilation in activated sludge.....G-8191
Plant-microbe interrelationships in non-legumes G-8577
Intra-partum microbiologic study of the amniotic cavity.....G-8579
Intermediary metabolism and alkaloid biosynthesis MY-3518

MICROBIAL DISEASES

Nitrate reduction in Escherichia coli E-1456

NITROANILIDES
Hydrolysis of p-nitroanilides by chymotrypsin G-7577

NITROARYL COMPOUNDS
Mechanism of carcinogenesis by conjugated molecules C-524
A study of the oxazetidine ring system...G-6811
Structural studies of small ring nitrogen compounds.....G-8348

NITROARYL THIONES
Pharmacology and spectrum of N-heteroaromatic thiones A-5184

NITROBENZENE
See Dinitrobenzene

P-NITROBIPHENYL
Synergistic action of oral carcinogens....C-5474

6-NITRO-6-DESOXY HEXOSES
Amino sugar chemistry.....A-2425

NITROFURAN
The molecular pharmacology of spermatogenesis.....G-6160

5-NITRO-2-FURYLACRYLATES
Biochemical properties of 5-nitro-2-furylacrylates E-2537

NITROGEN
Mechanism of nitrogen retention in pregnancy A-623
Amino acid requirements in human nutrition A-1347
Metabolic effects of hormones A-1362
Growth response in pancreatic deficient rats A-1390
Essential amino acid requirements in aging men A-2323
Studies on nondialyzable materials of human urine A-3037
Stilbenes in growth and nitrogen storage of lambs A-3292
Mechanisms of nitrogen transfer and urea formation A-3428
Phosphorus balance in acidosis A-3660
The phenylalanine requirement of young women A-3810
Factors accelerating tissue repair A-3899
Pituitary and steroid hormones on tissue metabolism A-4328
Metabolic studies of reversed jejunal segments A-4678
Maturation, bilirubin distribution and toxicity A-4831
Amino acid imbalance and protein depletion A-4904
Nitrogen metabolism of nervous tissue B-1615
Effect of age on rat exorbital glands B-1722
Nitrogen compounds and nerve action potential B-2650
Factors influencing body fat losses after operation C-3999
Thromboplastic content of human neoplasms C-4546
Growth rate analysis of suspended plant cell cultures C-5714
Micromethods of analysis of biological matter D-1004
Morphology, taxonomy and ecology of actinomycetes E-558
Nitrogen metabolism in insects E-2390
Mechanisms of dimorphic variation in Blastomyces E-3078
Studies on complement and its C'1 component E-3092
A study of muscular contraction G-3723
Normal and pathological physiology of skin G-5100
Bio-applications of nuclear and electron resonance G-5144
Plant growth regulators and nitrogen metabolism G-5976
Studies on the cytochrome system of Acetobacter G-6269
Population of liver mitochondria in the neonatal rat G-7467
Nitrogen balance in Limnoria G-7904
Nitrogen removal from waste water by denitrification G-7995
Dynamics of the nitrogen cycle in lakes G-8359
Effect of pneumothorax on plasma phospholipids H-1243
Research in cardiopulmonary physiology H-2001
Hyperlipemia in the nephrotic syndrome H-2324
Respiratory function in obesity H-2800
Lung gas exchange and oxyhemoglobin dissociation H-5167
Kidney function in infants and children H-5561

NITROGEN 15

Vitamin A and carotene utilization in deficient ruminants A-1799
Genesis of diabetes.....A-1804
Epiphyseal responses to metabolic alterations and injury.....A-2012
Amino acid imbalance and antibiotics.....A-2018
Inherited endocrine and nutritional relationships.....A-2033
Pregnancy--body composition and energy requirement.....A-2204
Hypercitricemia and the action of vitamin D.....A-2452
Metabolism of unsaturated fatty acids of depot fat A-2483
Effect of protein nutrition upon lipid metabolism A-2488
Studies on lipid synthesis in adipose tissue.....A-2640
Microspectroscopic studies of cellular components A-2648
Metabolism of B12 by rabbits and rabbit tissues A-2788
The nutritional status of miniature swine A-2836
Nutritional problems in adolescence.....A-2839
The ascorbic acid requirements of the guinea pig.....A-2899
Non-gonadotropic hormones and ovulation A-2986
Nutrition and bone anomalies in chicks and turkeys A-3007
Evaluation of nutritional status with blood enzymes A-3127
Effect of gliadin ingestion on non-tropical sprue.....A-3136
Availability of invertible D-amino acids for growth.....A-3141
Nutrition, environment and lipid metabolism A-3146
Nutrient requirements of animals.....A-3397
Nutritional status of Indian school children A-3398
Pylorus preservation--effect on dumping..A-3434
Physiologic evaluation of segmental gastric resection in dogs A-3497
Nutrition and biochemistry of polysaccharides A-3506
Human and experimental nutritional siderosis A-3532
Amino acid activating enzymes and soluble RNA A-3561
Malnutrition in African children A-3617
Nutritional studies on vitamin B6 .....A-3619
Fat and protein nutrition in swine.....A-3620
Strontium replacement of calcium in living organisms A-3680
Effects of vitamin C in the vitamin A-deficient rat.....A-3736
Biosynthesis of coenzyme Q A-3737
Influence of nutritional factors on thyroid function A-3770
The phenylalanine requirement of young women.....A-3810
Amino acid metabolism in human subjects.....A-3811
Normal and abnormal interrelationships in bone growth A-3816
Effect of nutrition on minor element metabolism A-3908
Studies on circulation apoenzyme apotransaminase.....A-3918
Evaluation of clinical signs of nutritional status.....A-3992
Plasma and urinary amino acids in older people A-4016
Interrelationships between amino acids ...A-4183
Tocopherol related to the essential fatty acids A-4272
Induced variations in storage patterns of vitamin B12 .....A-4274
Mammalian sphingolipid chemistry and metabolism A-4307
Nutritional studies on the monkey.....A-4308
Biosynthesis of B vitamins A-4310
Biochemical technics for nutrition surveys A-4345
Nutrition, metabolism, growth and illnesses in twins.....A-4363
Study of toxic cutaneous porphyria in Turkey A-4436
Evaluative screening of Soviet research in nutrition A-4491
Dietary requirement of polyunsaturated acids A-4524
The study of post-diarrheal anemia in infancy A-4666
State Health Departments in nutrition research A-4726
Amino acid metabolism in humans.....A-4727
Biochemical evaluation of nutritional status.....A-4731
Influence of nutrition on enzyme systems A-4732
Pathogenetic factors in malabsorption syndromes A-4737
Unsaturated fatty acids in blood and tissues of rat A-4738
Mineral metabolism and interrelationships.....A-4740
A study of zinc metabolism A-4742
Surgical research on nutrition, liver and blood flow A-4825
Infection and human nutritional status in the tropics.....A-4827
Nature of lipid defect in cystic fibrosis of pancreas A-4863
Metabolism of amino acids.....A-4872
Amino acid imbalance and protein depletion A-4904
Body composition studies of adult women A-5161
Fatty acids of cholesterol esters in sera..A-5163
Potassium and acid base balance in premature nutrition.....A-5202
Nutrition research and training in Lebanon A-5285
Training of physicians for nutrition research.....A-5582
Nutritional and cardiovascular studies in primates.....A-5628
Perinatal thyroid function in relation to maturation A-5726
Histochemical study of the aging nervous system B-342
Behavior of nervous tissue in vitro..... B-364
Growth and differentiation of the chick embryo eye B-789
Studies on poisonous dinoflagellates.....B-1198
Search for a metabolically active form of vitamin E.....B-1200
Studies in experimental encephalomyelitis B-1565
Studies on hydroxy acids B-1665
Electron microscopy of retina and supporting tissues B-2010
Mechanisms of differentiation of embryonic cells B-2238
Energy supply disorders affecting fetal-infantile CNS B-2275
Collaborative study of cerebral palsy.....B-2383
Tissue culture of nervous tissue B-3114
Role of nutrition in animal cancerogenesis.....CY-1018
Uracil and thiouracil in nucleic acid formation.....C-1307
The physiological effects of heated fat...C-1932
Pathology of the gastrointestinal tract....C-2090

Chemotherapy plus radiation for cancer . .CY-3182
Cancer chemotherapy and carcinogenesis CY-3188
Radiosensitivity of normal and malignant cells.....C-4484
Pathobiology of the digestive tract mucous membrane.....C-4486
A new nutrition-dependent carcinogen C-5230
Studies of oral ecology..... D-175
Role of nutrition in the development of bones and teeth D-204
Effects of protein nutriture in rats..... D-626
Role of traces of fluoride in bone metabolism D-930
Growth and development of the face D-934
Biosynthesis of collagen D-1021
Studies in oral-facial anomalies.....D-1228
Chewing efficiency and dietary habits in the aged..... D-1296
Isolation of selenium compounds in Stanleya bipinnata.....D-1360
Para-oral structures—thyroid and nutrition.....D-1364
Saliva and oral flora interrelationships ...D-1402
Visceral leishmaniasis in experimental animals E-92
Nutrition of insects..... E-533
Nutritive requirements of Paramecium multimicronucleatum E-780
Nutrition of the fresh-water ciliates..... E-800
Nutrition of host and parasitemia with Trypanosoma cruzi..... E-977
Amino acid requirements of Trichomonas vaginalis E-1002
Antibiotic resistant staphylococci E-1079
Morphology, nutrition, and metabolism of Veillonella E-1186
Taxonomy of the Plecoptera.....E-1442
Host-parasite relations of intestinal helminths.....E-1508
Role of symbionts in insect nutrition and immunity..... E-2426
Micrococcus lysodeikticus growth and wall synthesis.....E-2530
Water balance and nutrition in mites.....E-2622
Isolation of natural resistance vitamin....E-3207
Detection of influenza virus in modified cell cultures E-3332
Feeding caesarean and natural born germfree rodents.....E-3449
Comparative biochemistry of parasitic helminths.....E-3515
Transformation competency in H. influenza systems E-3521
In vitro culture of Schistosoma mansoni...E-3532
Vitamin changes with hemoprotozoan infections E-3573
Studies on continuous fermentation.....E-3629
Interrelations of disease and nutrition in poultry.....E-3645
The influence of infection on nutritive requirements E-3646
Biosynthesis and action of bacterial pigments E-3953

Urinary gonadotropins in secondary amenorrheas....A-1686
Ovarian sensitivity in hypothyroidism--cyst etiology....A-2321
Physiology of secretion of luteinizing hormone - LH....A-2544
Assay of steroid 3-beta-ol-dehydrogenase....A-2795
Studies of thyroid-ovarian interrelationships....A-3000
Secretions of androgens by normal and abnormal ovaries....A-3034
Fetal X-irradiation, differentiation, fertility....A-3045
FSH and its effects on ovarian metabolism....A-3061
Pathogenesis of constitutional virilism...A-3341
Characterization of human pituitary gonadotropin....A-3448
A method of assay of small quantities of estrogens....A-3452
Correlation of ovarian endocrinology and histology....A-3500
Hormones, uterine stroma and blastocyst implantation....A-3804
Enzymic histochemistry of human reproductive organs....A-3806
Antibodies to purified follicular stimulating hormones....A-4009
Synthesis of androgenic steroids....A-4330
Estrogen and progesterone synthesis....A-4405
Microtechnic for the measurement of progesterone....A-4426
Biochemical study of normal and cystic bovine ovary....A-4432
Anabolic actions of adenohypophyseal hormones....A-4521
Metabolic defects in male pseudohermaphroditism....A-4782
Variations of ovarian levels in mares....A-4932
Endocrine studies of the anovulatory ovary....A-5087
Steroid synthesis by human ovaries....A-5179
Neuro-endocrine relations of the primate ovary....B-2533
Control of gonadotropin secretion by the diencephalon....B-3001
Tumorigenesis in the monkey....C-429
Developmental norms for Macaca mulatta....C-2304
Estrogens in the urine of woman....CY-2786
Hormonal control of normal neoplastic tissue grafts....C-2880
Steroids in relation to endocrine-stimulated cancers....CY-3135
Tolerance for homologous normal and neoplastic tissues....C-3511
Ovarian steroidogenesis....CY-3653
The human ovary--perfusion and steroid measurement....C-4009
Etiologic factors in endometrial carcinoma....C-4120
Studies on spontaneous endocrine imbalance in mice....C-4510
Multiple effects of hypophysectomy on chick embryos....G-4716
Mechanism of growth of endometrial tissue....G-4720
Reproductive behavior and physiology of fish....G-4958
Studies on interaction of environmental influences....G-5300
The biochemistry of non-steroid ovarian hormones....G-5414
Differentiation and maintenance of structure in cells....G-5867
Studies on cell structure....G-6942
Ovarian differentiation in vitro....G-6976
Factors influencing ovarian function....G-7185
Factors controlling the efficiency of reproduction....G-7706
Reproductive physiology in the raccoon...G-7849
Determination of ovarian function with use of electronic sensors....G-8137
Effects of hysterectomy on the ovary....G-8413
A comparative study of interaction....M-3203

Corpus luteum
See also Luteolytic factors
Action of growth hormone in primates....A-292
Endocrine and nutrition factors necessary for ovulation....A-800
In vitro study of corpora lutea....A-3730
Study of the pituitary gonadotropic hormones....A-3758
Placental-ovarian interrelationships....A-4394
Maintenance of the corpus luteum....A-4692
Fine structural changes in luteinization...A-5079
Relationship of neurogenic factors to corpus luteum function....B-1296
In vitro adrenal steroid synthesis....C-2121
A study of the pituitary-corpus luteum relationship....G-5526
Endocrinology of reproduction in elasmobranch fishes....G-6455
Experimental studies on the delay in implantation....G-7251
Survival of placental grafts in millipore chambers....G-8892

Graafian follicle
Placental-ovarian interrelationships....A-4394
Transport of ova from the ovary into the oviduct....G-4241
Electron microscopy of the nuclear envelope of oocytes....G-5803
The hormonal control of ovarian abnormalities....G-7184
Study of secretor and ABO- H-factors in man....H-5437

OVARY NEOPLASMS
See also Luteoma
See also Polycystic ovary
Hormones in control and causation of neoplasia....C-343
Tissue culture studies of uterine and ovarian cancer....C-2413
Cytochemical studies in gynecological tumors....C-2428
Endocrine tumor steroid biosynthesis....C-2833
Chemotherapy of solid tumors in the human....CYP-3147
Interaction of leukemia and mammary cancer factors....C-3505
Adjuvant chemotherapy study in cancer of ovary....CYP-4316
Hormonal therapy for mouse mammary cancer....CY-4517
Genetic control of response to carcinogenic stimuli....C-4520
Studies of some endocrine aspects of neoplasia....C-5191
Effect of antigonadotropic sera on ovarian tumors....C-5239
Chemotherapy in gynecologic cancer....CY-5260
Adrenal and gonadal tumor response to tropic hormones....CY-5301
Study of genital carcinoma in women of Uttar....C-9603
Ovarian cancer, diagnosis by Cul-de-Sac washings....C-9748

OVIDUCT
Biosynthesis of mucopolysaccharides in hen oviduct....A-1158
On the formation and metabolism of collagenous tissue....A-3638
Effect of hormones on mammary gland in organ culture....CY-4420
Electron microscopic studies on particle transport....E-1868
Natural inhibition of meiosis in oocytes of Amphibia....G-6291
Studies on mammalian fertilization....G-6950
Studies on the physiology of the mammalian oviduct....G-7063
Comprehensive study of oviduct physiology....G-7359
The role of estrogens in protein synthesis....G-7494
Effects of hysterectomy on the ovary....G-8413

OVOGENESIS
See Oogenesis

OVULATION
See also Estrus
Maternal-fetal endocrine interrelations in the monkey....A-503
Endocrine and nutrition factors necessary for ovulation....A-800
Hypothalamus and physiological functions....A-1805
Non-gonadotropic hormones and ovulation....A-2986
Biological substances which induce ovulation....A-3125
Endocrine basis of cyclic reproductive behavior in hen....A-3417
A study of the regulation of progesterone secretion....A-3757
Microtechnic for the measurement of progesterone....A-4426

Hypothalamus in reproduction and cortical activation B-1386
Carbohydrate configuration and sensory stimulation B-1768
Neuroendocrinology of the frog B-2773
The avian encephalogram as affected by hormones B-3194
Studies on the initiation of cleavage C-3124
Vaginal electric potential in estrogen dependent cancer C-4643
Transport of ova from the ovary into the oviduct G-4241
Gonadotrophins in Primates G-5459
Endocrine interrelationships in female reproduction G-6949
Factors influencing ovarian function G-7185
Chemical composition of mammalian ova G-7730
Reproductive physiology in the raccoon G-7849
Determination of ovarian function with use of electronic sensors G-8137
Physiologic analysis of action of dextro-thyroxine H-5134

Superovulation

Small intestinal absorption in malabsorption syndromes A-2534
Alpha 2 proteins in necrobiosis lipoidica and diabetes....A-2586
Biochemical studies on biotin A-2607
Effects of hormones in protein biosynthesis A-2635
Studies on lipid synthesis in adipose tissue....A-2640
Studies in connective tissue synthesis ...A-2663
Metabolic patterns as influenced by endocrines....A-2701
Iron, copper and plasma proteins in anemias of infancy....A-2709
Studies of amino acid, simple protein metal complexes....A-2734
Thiol and disulfide groups in proteins A-2735
Methodology for the study of thyroid disorders A-2766
Biophysical studies on modified fibrous proteins A-2809
Studies on a new type gastric substitution pouch....A-2824
Investigation of the structure of fibrous proteins A-2830
Sulfhydryl groups and properties of hemoglobin A-2831
Regulation of composition of intestinal contents....A-2837
Study of synovial glycoproteins A-2893
Physicochemical basis of biological stability....A-2904
Physical properties of biological macromolecules A-2905
Normal and abnormal hemoglobin variants A-2940
Biochemical studies of hereditary hemolytic anemias A-2956
Metabolism of iron and copper in weanling rat A-2961
Ontogeny of inflammatory and immune responses....A-2964
Pathological protein deposition....A-2967
Molecular interaction A-2984
Acute chronic marrow failure A-2992
Nutrition and bone anomalies in chicks and turkeys A-3007
The chemistry of luteinizing hormone....A-3033
Protein depletion on the healing of experimental burns....A-3077
Polyamino acids and their use as protein models A-3083
Physical studies of proteins of modified structure....A-3096
Diffusion of bovine mercaptalbumin in solutions A-3101
Liver damage and hepatic alcohol dehydrogenase A-3104
Characterization of protochlorophyll holochrome A-3118
Studies on the nature of collagen and of collagenase....A-3172
Metabolism and secretion of aldosterone in pregnancy A-3179
Biophysical applications of x-ray crystallography....A-3185
Protein-acid mucopolysaccharide ionic bonding studies A-3222
Nitrogen metabolism during the post-surgical states A-3257
Reticulocyte microsomes and hemoglobin synthesis....A-3271
Metabolic effects of vitamin E deficiency A-3294
Urinary mucoproteins in the etiology of urolithiasis A-3296
Statistical constraints in amino acid order....A-3305
Tyrosyl hydrogen bonds in globular proteins A-3306
Studies on polyelectrolytes A-3308
Mechanisms regulating ultrafiltrable plasma calcium....A-3374
Mucoids of saliva in fibrocystic disease..A-3390
Studies on the structure of microsomal particles....A-3409
Studies on protein structure and interactions....A-3412
Microsomal particle and related ribonucleic acids A-3414
Studies on the origin and role of urinary mucoproteins A-3481
Studies on the composition of mucus A-3485
Restricted diffusion of ampholytes and proteins A-3508
Protein metabolism of the gastropod egg A-3554
Experimental and clinical studies with glucagon A-3556
Amino acid activating enzymes and soluble RNA A-3561
Biophysical study of the mitotic spindle proteins A-3610
Fat and protein nutrition in swine A-3620
Permeability of estrogens into tissue cultured cells....A-3689
Role of liver in systemic distribution of proteins A-3695
Hormonal control of amino acid transport into cells....A-3709
Quantitative aspects of amino acid metabolism A-3716
Biophysical studies of bacteriophage reproduction A-3726

Nucleic acid studies in cancer chemotherapy.....CY-3528
Mechanism of androgen action.....CY-3566
Proliferation and differentiation in Physarum.....C-3584
Metabolic effects of progesterone in breast cancer.....CY-3599
Chemical modification in protein structure analysis.....C-3640
Hydrogen transfer in photosynthetic bacteria.....C-3649
Cell growth and protein-nucleic acid metabolism.....C-3656
Vitamin B12 combining power of serum in disease.....C-3696
Protein metabolism of human gastrointestinal cancers.....C-3697
Biochemical studies in cancer.....C-3715
Nucleic acid syntheses in normal and abnormal nuclei.....C-3725
A biochemical investigation of lymphatic organs.....C-3806
Studies of protein structure.....C-3914
Synthesis of peptides under marine conditions.....C-3971
Structure and activity of biologically active proteins.....C-3974
The structure of solid polymers of biological interest.....C-3984
Experimental thyroid tumorigenesis.....C-4043
Studies on thyrotropic hormone.....C-4200
Interactions of nucleotides and proteins..C-4216
Plasma protein production in tumor-bearing rats.....C-4236
Cellular regulatory mechanisms-normal-tumor tissues.....C-4271
Mechanisms of cell response to damage..C-4277
Effect of ribonuclease on Ehrlich tumor cells.....CY-4403
Metabolism of amides and proteins in tumor-bearing rats.....C-4493
Ring A-estrogen substitution and physiological response.....CY-4519
Enzymes associated with protein biosynthesis.....C-4538
Steroid effects on normal and neoplastic cell permeability.....CY-4569
Function of nucleic acid in virus synthesis.....C-4601
Mechanisms of induction of neoplastic growth.....C-4692
Physical and chemical studies of abnormal proteins.....C-4693
Structure of viruses.....C-4696
Quantitative cytochemical studies of cell growth.....C-4716
Quinone imide derivatives of 2-acylaminofluorene.....C-4791
Determination of specific antigens of tumor tissues.....C-4798
Value of special laboratory studies of ascitic fluid.....C-4801
Protein absorption and amino acid metabolism.....C-4902
Effect of nucleic acid antimetabolite on tissue transplant.....C-4976
Metabolism of vitamin B12 in relation to cancer.....C-5065
Microsomal metabolism during liver carcinogenesis.....C-5101
Chemotherapy studies on spontaneous cancer in dogs.....CY-5130
Nucleic acid metabolism in normal and tumor cells.....C-5172
Investigations in certain phases of chemical oncology.....C-5187
Enzymes in chromatograms of soluble tissue proteins.....C-5228
Interaction between carcinogen and cellular component.....C-5246
Fractionation studies of soluble tumor proteins.....C-5328
Cathepsins of leukocytes in health and leukemia.....C-5330
Adrenal hyperfunction in brochogenic carcinoma.....C-5371
Inhibition of protein metabolism by anticancer agents.....CY-5421
Fine structural alterations in cell particles.....C-5431
Chemical effects of antitumor agents on tumor cells.....CY-5434
Autoradiographic study of liver azo dye storage.....C-5454
Correlative studies of mouse and human plasmacytomas.....CY-5468
Studies on chemical carcinogenesis.....C-5490
Studies on agranulocytosis.....C-5524
NMR- and EPR- spectroscopy.....CY-5528
Physiological activity of asymmetric complexes.....CY-5561
Protein chromatography of cancer tissue..C-5663
Characterization of a nuclear protein found in tumors.....CY-5702
Uptake of synthetic peptides by tumors..CY-5719
Metabolism and function of ribonucleic acid.....C-5757
Effects of steroids on transplantable tumors of mice.....CY-5761

Energy metabolism of working and non-working hearts H-5624
Chemical studies of enzymatic hydrolysis mechanisms H-5726
Location and fate of experimental pulmonary emboli H-5740
Occult intravascular fibrin deposition H-5798
Study of blood platelet physiology and preservation H-5895
Experimental and clinical studies on lipid metabolism in relation to atherosclerosis H-5902
The effects of heparin in coronary disease H-5965
Active transport through biological membranes H-6063
Erythrocyte lipids and cellular permeability H-6108
Hematologic factors in hypothermia H-6238
Mechanism of action of ataraxic agents MY-2405
Study of a somatic trait for chronic alcoholism M-2547
Biogenesis of morphine and related alkaloids MY-2662
Catechol amines in brain metabolism MY-2717
Intermediary metabolism and alkaloid biosynthesis MY-3518
Behavioral and metabolic aspects of indoles MY-3690
Metabolism of phenothiazines MY-4578

RADIOLABELED ARSENIC

Cigarette smoke, arsenic, cancer of the lung problem C-3694

RADIOLABELED CALCIUM

Metabolism of calcified tissues A-592

(contd)

RADIOLABELED CALCIUM (contd)

Bone metabolism A-774
Study of osteoporosis A-855
Metabolism of steroids during pregnancy ..A-2209
Calcium 45 and Strontium 85 metabolism in osteoporosis A-2212
A study of rapid osteogenesis A-2312
Rhesus monkey fetal skeletal biochemistry and growth A-2597
Role of the parathyroid gland to calcium metabolism.....A-4042
Metabolic studies on bone demineralization in vivo A-4071
Complexation studies by nuclear magnetic resonance A-4094
Effects of fluoride ion on calcium metabolism.....A-4701
Autonomic drug effects on dihydroxyphenylethylamines.....B-1448
Calcium metabolism and function in normal and neoplastic tissues C-3117
Clinical chemotherapy of cancer CY-3215
The fate of calcium in the gastrointestinal tract.....C-3277
Metabolic and hormonal effects of steroid hormones..... CY-3598
Endocrine factors which influence tumor growth in man.....CY-5197
Effects of x-ray on facial bone and teeth..... D-250
Calcium metabolism in "la" strain of rats..... D-877
The fate of intramembranous bone transplants D-1313
Calcium kinetics in metabolic bone disease D-1452
Research upon aging H-1658
The mechanism of action of calcium in heart muscle H-2298
Electrolyte metabolism in mammalian heart H-4155
Effect of imipramine and ECT on calcium in depression.....M-4958

RADIOLABELED CARBON

Studies with pituitary and adrenal hormones A-19
Regulation of metabolism A-113
Scoliosis produced by diet..... A-149
Purine metabolism and gouty arthritis A-162
Utilization of ketone bodies by rat tissues..... A-213
Studies on the biological functions of vitamin B6 ..... A-257
Effect of insulin on metabolic reactions .. A-357
Nature of erythrocyte porphyrins in thalassemia..... A-466
Metabolism of amino acids..... A-493
Pancreatic physiology..... A-522
Chemical pathology of lesions produced by ethionine..... A-610
Carbohydrate metabolism in diabetes A-620
Alternate pathways in histidine metabolism A-650
Bile metabolism and gallstone formation .. A-699
Role of non-protein sulphydryl compounds in the body A-719
Bone metabolism A-774
Protein synthesis and secretion by mouse pancreas A-803
Studies of obesity A-893
Serine and hydroxyaspartic acid metabolism A-922
Mechanisms influencing erythrocytes..... A-965
Iodine metabolism and thyroid function ...A-1094
Muscle metabolism A-1157
Glucagon effects on metabolism in rat diaphragm A-1266
Carotenoid biosynthesis A-1278
The effect of diabetes on fat metabolism in the rat A-1298
Protein metabolism in nephrosis A-1323
Studies of gouty arthritis A-1391
Utilization of methionine A-1464
Biochemical changes in carbon tetrachloride poisoning and fatty liver ..A-1489
Nucleic acid metabolism in man A-1606
Adrenocortical activity in peptic ulcer and colitis.....A-1666
Factors involved in the heat damage of oils.....A-1671
Study of mitochondrial metabolism in diabetic animals.....A-1708
Immunologic role and properties of white blood cells A-1732
Metabolic factors of the pituitary A-1788
The renal diseases associated with hyperuricemia A-1828
Effect of tolbutamide on glucose utilization A-1847
Steroid hormones and amino acid incorporation.....A-1891
Cyclic changes in intracellular citrate of avian bone.....A-1970
Serotonin in gastrointestinal diseases....A-1992
Bovine porphyria--genetic, photodynamic, metabolic A-2096
Isotopic methods for in vivio study of fat metabolism A-2131
Studies in intermediary metabolism A-2138
Corticosteroids in bile and experimental cholelithiasis A-2272
Acetate and glutamate metabolism in thiamine deficiency A-2278
Studies of aminonucleoside nephrosis A-2285
Metabolism of unsaturated fatty acids of depot fats.....A-2483
Effect of protein nutrition upon lipid metabolism.....A-2488
Lipide metabolism in the skin A-2523
Endocrines in fetal development A-2561
Turnover of fatty acids of plasma lipids.. A-2564
Biochemical pathways in obese and non-obese humans..... A-2588
Pathways of carbohydrate metabolism in the liver.....A-2598
Biochemical studies on biotin A-2607
Study of adrenal function in newborn infants A-2664
Metabolic heterogeneity of hemoglobins..A-2773
Turnover of serum mucoproteins A-2778
Pathological and biochemical studies on gastric mucosa A-2796
Conversion of corticoids to estrogens in human.....A-2878
Post-irradiation hyperlipemia A-2906
Metabolic origin of endogenous ethanol...A-2914
Insulin and glucose metabolism.....A-2949
Preparation of glucose analogs for metabolic studies.....A-2950
Catalytic decomposition of amine oximes by copper II ions.....A-3006
Cirrhosis, ammonia intoxication and shock A-3048
Secretion and effects of adrenocortical hormones.....A-3062
Metabolism of carbon 14 labeled carnosine and anserine A-3066
Metabolism of steroids in the bovine male and female A-3124
Steroid hormones and growth in children ..A-3164
Studies of regeneration of gastrointestinal mucosa.....A-3165
Clinical studies of lipid synthesis with carbon 14 acetate A-3191
Effects of parathyroid hormone on bone ...A-3224
Metabolic effects of vitamin E deficiency A-3294
The metabolism of adrenaline and noradrenaline.....A-3302
Statistical constraints in amino acid order.....A-3305
Fatty acid absorption A-3458
Quantitation of corticoid secretion in hamsters.....A-3467
Nutrition and biochemistry of polysaccharides A-3506
Experimental and clinical studies with glucagon A-3556
Glucose and propionate breakdown in rat mammary gland A-3682
Biogenesis of oligosaccharides containing galactose.....A-3713
Enzymatic studies on alpha-hydroxyglutamic acid A-3718
A study of the carbon dioxide-water equilibrium A-3728
Biosynthesis of coenzyme Q A-3737
Endocrine effects on metabolism of isolated rat liver A-3755
Steroid and terpenoid synthesis and related studies A-3787
Caloric restriction and metabolic pathways A-3872
Physiologic responses to 3-acylpyridines A-3873
Transtubular movement across the renal tubule.....A-3885
Effects of DIAC in diabetes.....A-3962
Carbohydrate and ketone body metabolism in ruminants A-3966
Metabolism of estrogens in liver diseases.....A-4035
Effect of hypoglycemic agents on cell metabolism.....A-4052
Hyperlipemia and hypercholesterolemia ...A-4059
Studies on growth hormone A-4080
Exercise on glucose production and utilization in man.....A-4091
Age, sex and hormone variation and dermal metabolism A-4101
New reactions of steroids.....A-4211
Hepatic glucose production, utilization and balance A-4236
Amine metabolism in liver disease A-4267
Metabolism of aldosterone in vitro and in vivo A-4327
Pituitary and steroid hormones on tissue metabolism A-4328
Plasma lipid changes in pregnancy and neonatal life A-4379
Estrogen and progesterone synthesis.....A-4405
Hormonal control of metabolism in adipose tissue A-4411
Biochemical study of normal and cystic bovine ovary A-4432
The formation of fasting triglycerides in man A-4535
Studies on enzymes of galactose metabolism A-4600
Studies of a glutamic acid incorporating system A-4620
Studies of phenethylbiguanide hypoglycemia A-4627
In vivo glucose and fat metabolism in diabetes.....A-4705
Hepatic lipid accumulation in liver injury A-4706
Protein synthesis inhibition in hepatic regeneration A-4707
Effect of insulin on carbohydrate oxidation in muscle A-4718
Studies of intestinal absorption of sugars.....A-4719
Metabolic studies with vitamin C A-4724
The unextractable estrogen fraction in human urine A-4774
Chemistry, synthesis, and transport of neural lipids.....A-4780
Regulation of amino acid and protein metabolism A-4790
Metabolism of phosphatides in human beings A-4792
Histochemical study of intestinal glucose absorption.....A-4816
Metabolism of amino acids.....A-4872
In vivo and in vitro metabolism of lipoid acid.....A-4877
Mechanism of protection against ionizing radiation.....A-4957
Anti-diuretic hormone and intestinal permeability A-5025
Endocrine studies of the anovulatory ovary A-5087
Metabolism of dehydroxyacetone.....A-5152
Triglyceride synthesis in mammary glands A-5156
Mechanism of creatinuria in irradiated rats A-5170
Steroid synthesis by human ovaries A-5179
Ocular chanoes in diabetes..... B-237
Chemistry and metabolism of brain lipids.. B-356
Pharmacology and therapy in convulsive disorders..... B-381
Metabolic alterations in drugs..... B-384
Functional and metabolic relationships in the brain B-413
Blood-brain barrier and the metabolism of amino acids B-557
Distribution and fate of morphine and related alkaloids..... B-625

Metabolism and function in sympathetic neurons B-702
Mode of action of neuromuscular blocking agents B-738
Growth and differentiation of the chick embryo eye B-789
Studies on hydroxy acids B-1665
Some properties of the blood-brain barrier B-1895
Intestinal absorption of onium compounds B-1966
Corticosteroids in aqueous humor of humans and rabbits B-2058
Effects of aliphatic alcohols on tissue metabolism in vitro BP-2132
Nerve metabolism and function in alloxan diabetes B-2141
Regional variation in the blood-brain barrier B-2331
Metabolic and functional development of the retina B-2710
Metabolism of sphingolipids and radio-labeled carbon fatty acids B-2967
Interrelation of nitrogenous compounds of tissues B-3099
Development of visual pigments during metamorphosis B-3112
Chemical and metabolic studies of brain lipids B-3191
Brain glycolipids--metabolism and pathology B-3192
Defect in myasthenia and other neuromuscular diseases B-3464
Histochemical study of growth and neoplasia C-558
Metabolism in normal and neoplastic tissues C-879
Metabolism of carcinogens labeled with radiocarbon C-1132
Uracil and thiouracil in nucleic acid formation C-1307
Purine metabolism of Clostridium acidiurici C-1475
Glutathione and nitrogen metabolism in tumors C-1719
Carbon 14 estrogen metabolism in pregnant and cancerous women CY-2071
Cytoplasmic factors in cellular growth ... C-2146
Study of humoral factors affecting erythropoiesis C-2149
Free amino acids in normal and neoplastic tissues C-2568
Normal and abnormal bone marrow metabolism C-2643
Analog inhibition of tumors and protein biosynthesis CY-2756
Some aspects of the metabolism of sterols C-2851
Lymphocytosis induced by Listeria monocytogenes C-2876
Purification of mammary tumor inducing agent in mice C-2952
Physiological disposition of anticarcinogenic drugs CY-2992
Biochemistry of amphibian metamorphosis C-3006
Further synthesis of alkyloximino acids. CY-3024
Steroids in relation to endocrine-stimulated cancers CY-3135
Nucleic acid biosynthesis with metabolic analogues C-3179
Enzymic catalysis of group transfer C-3213
Chromosome replication C-3276
Studies on carbon 14 and tritium labeled antitumor agents CY-3349
Metabolic effects of progesterone in breast cancer CY-3599
Study of metabolism of anti-cancer agents C-3630
In vitro metabolism of steroids by human tissues CY-3719
Clinical investigation of cancer CY-3809
Compounds for diagnosis of pancreatic neoplasms C-3952
Identity of intermediates in one-carbon metabolism C-3981
The human ovary--perfusion and steroid measurement C-4009
Correlative studies of bone marrow viability C-4144
Physical-chemical studies on yeast nucleic acids C-4223
Metabolism of the virus-induced tumors of Rumex C-4294
Combined x-ray and chemical therapy of retinoblastoma CY-4346
Cytidine nucleotides and the biosynthesis of DNA C-4464
A detailed study of pyrimidine biosynthesis C-4655
Dienol-benzene rearrangement of steroids CY-4663
Effect of radiation on collagen C-4687
Chemotherapy of brain tumors CY-4751
Tumor-host relationships in vivo and in vitro C-4765
Studies on uterine phenol activated oxidase C-4851
Hormonal regulation of neoplastic growth CY-4868
Radioactive labeling of leukocytes CY-5001
Human leukocyte metabolism in vitro ... CY-5064
Carbon dioxide fixation in animal tissues C-5090
Nucleic acid metabolism in normal and tumor cells C-5172
Chemical basis of nitrogen mustard activity CY-5295
The effect of ribonucleic acids on tumor growth C-5344
Physiological disposition of anticarcinogenic drugs CY-5445
Polar corticoids in the guinea pig and cancer C-5466
Pyrimidine uptake by normal and leukemic leukocytes C-5492
The salivary secretion of organic compounds D-1335
Biosynthesis of Streptomyces griseus phage E-224
Morphology, taxonomy and ecology of actinomycetes E-558
Pharmacology of pyrimethamine E-824
Carbohydrate metabolism of microorganisms E-1144
Inhibition of delayed-type hypersensitivity E-1258
Localization and metabolism studies on sensitive skin E-1446
Free coagulase -- its production and properties E-1679
Metabolism of Echinococcus granulosus .. E-1867
Protein toxin synthesis in Clostridium tetani E-2088
Biochemical investigations of insect fat metabolism E-2176
Effect of penicillin on bacterial nitrogen metabolism E-2189
Detoxication mechanisms in insects E-2217
Nucleic acid changes in virus-infected human cells E-2432
Mechanism of poliomyelitis virus synthesis E-2749
Ornithine transcarbamylase biosynthesis in bacteria E-3150
Incorporation of analogs into tobacco mosaic virus E-3352
Antibody production by spleen in tissue culture E-3721
Studies of the maternal system and product of gestation G-3354
Enzyme activity at interfaces other than air-water G-4236
Spermatogenic defects in man G-4642
The role of vitamin C in wound healing ... G-4656
Penetration and action of surfactants on epidermis G-4760
The establishment and maintenance of a monkey colony G-4868
Biosynthesis of beta-sitosterol and terpenes G-5622
The biosynthesis of carotenoids G-5761
Tryptophan metabolism G-5766
Biosynthesis of anthranilic acid in microorganisms G-5809
Biochemistry of chemoautotrophs G-5904
Isolation and function of nucleoli G-5994
Aspects on the specificity of action of nucleic acids G-6035
Pentose phosphate biosynthesis G-6070
Studies on the biosynthesis of collagen and elastin G-6169
Origin of serine and glycine in Penicillium digitatum G-6387
Synthesis, metabolism, biogenesis of necine bases G-6457
Study of wound healing G-6483
Enzymatic synthesis of methylated purines G-6528
Control mechanisms during embryonic development G-6638
Metabolism of glutamic and pyruvic acids in rats G-6765
Biochemical studies on isolated oocyte nuclei G-6830
Properties of gibberellins from flowering plants G-7065
Seminal and testis organ function G-7120
Biochemistry of sperm G-7301
Resting and contraction metabolism of rat diaphragm G-7305
Mechanism of action of plant growth-regulators G-7492
Blood-pH of mice--genetical and biochemical aspects G-7786
Biosynthesis of heterocyclic rings in plants G-7862
The ribonucleoproteins of cellular nuclei .. G-7923
Fat metabolism in insects G-8135
Biosynthetic ontogeny of hemoglobin G-8158
Nutritional and biochemical studies on milk formation G-8183
Metabolism of a plant sulfolipid G-8449
Chemical studies in experimental arteriosclerosis H-109
Studies in lipid metabolism H-955
The function of plasma phospholipids H-1238
Metabolism and preservation of human blood cells H-1667
Relation of dietary fats to atherosclerosis H-1819
Mucopolysaccharides in rheumatic-like lesions H-1842

RADIOLABELED DEUTERIUM OXIDE

IR spectra and metal chelation sites in biochemistry A-3021
Interfacial hydration of biological materials A-3119
Factors influencing body fat losses after operation C-3999
Hodgkins disease--etiologic research C-4584
Humidity and temperature on absorption of deuterium oxide by skin G-7181
Energy metabolism in birds at various activity levels G-7345

RADIOLABELED FLUORINE

Metabolism of calcified tissues A-592

RADIOLABELED GOLD

Metabolic effects of portacaval transposition A-1053
Tracer studies in experimental and human liver damage A-2848
In vivo radioisotope counting scanning technics A-3128
Rotational photoscanning of the liver C-4456
Extension of internal organ scanning techniques C-4961
Lymphatic flow in the head and neck D-546
Electron microscopic studies on particle transport E-1868
Hemodynamics and prophylactic shunt in cirrhosis H-4644

RADIOLABELED IODINE

Normal and disordered thyroid states A-8
Studies on blood proteins A-251
Maternal-fetal endocrine interrelations in the monkey A-503
Studies in insulin metabolism A-504
Nature and importance of autoantibodies A-548
Synthesis and evaluation of thyroxine analogs A-703
Endocrine secretions in childhood A-1022
Iodine metabolism and thyroid function A-1094
Steroid hormones in thyroid function A-1200
Iodine metabolism and thyroid function A-1328
Removal of chondroitin sulfate from cartilage A-1395
Mechanism of action of the thyroid hormone A-1459
Triiodothyronine localization in pituitary and CNS A-1530
Parathyroid regulation of mineral metabolism A-1620
Endocrinology of second metamorphosis in amphibians A-1786
Control of anterior pituitary A-1835
A study of renal lymphatic calcification A-1839
Iodine 131 lipids absorption and intestinal motility A-1987
Studies on the pituitary-thyroid relationship A-1993
In vitro study of factors that modify insulin action A-2001
Lipid metabolism--absorption and transport A-2031
A study of the kinetics and metabolism of insulin A-2041
Body fluid regulation in acute renal failure A-2291
Effect of ambient temperature on rate of aging in rats A-2308
Ovarian sensitivity in hypothyroidism--cyst etiology A-2321
The peripheral turnover of thyroxine during stress A-2342
The role of the kidney in the disposal of insulin A-2468
Factors regulating albumin production A-2489
Glucagon assay A-2700
Iron, copper and plasma proteins in anemias of infancy A-2709
Methodology for the study of thyroid disorders A-2766
Thyroxine binding protein and hormone utilization A-2770
Metabolism of plasma proteins A-2803
Postgastrectomy steatorrhea A-2804
Tracer studies in experimental and human liver damage A-2848
Studies of thyroid-ovarian interrelationships A-3000
Assay of human hypophyseal hormones and inhibitors A-3004

FSH and its effects on ovarian metabolism A-3061
In vivo radioisotope counting scanning technics A-3128
Endocrine effects of diencephalic lesions in birds A-3149
Bioassay of thyroid stimulating hormone .. A-3380
Thyroid function and iodine metabolism ... A-3612
Absorption pattern and metabolism of thyroid hormones A-3677
Utilization and binding of insulin A-3729
Chick embryo thyroid detection of x-ray exposure A-3828
Renal insulin clearance and degradation .. A-3882
Pancreatic secretion in health and disease states A-3889
Effects of DIAC in diabetes A-3962
Serum trypsin and trypsin inhibitor in pancreatitis A-3973
Oxidative phosphorylation in the lens epithelium A-3985
Day to day and diurnal study of human thyroid function A-4032
Experimental surgery for calculous pancreatitis A-4116
In vitro studies of albumin catabolism A-4123
Collateral blood flow in portal hypertension A-4157
Thyroxine analogs A-4223
Thyroid and cellular changes in pregnancy A-4224
Role of serotonin in thyroid action of reserpine A-4229
Metabolism of gamma globulins in liver disease A-4263
Plasma binding factors in the metabolism of insulin A-4331
Metabolism of iodinated compounds by human leukocytes A-4453
Physiological changes in autoimmune endocrinopathies A-4500
Metabolism of a transplantable thyroid tumor A-4504
Production of amyloid for testing labeled Congo Red A-4571
Study on the diagnosis of mesenteric infarction A-4592
Study of cellular secretion A-4684
Metabolism of phosphatides in human beings A-4792
Etiology of nodular goiter A-4818
Pituitary-thyroid function in children A-4822
Studies of radioiodinated antipyrine in dog and man A-4941
Absorption and antiperistaltic bowel segments A-4952
Radiolabeled thyroxine thyroid function studies A-5145
Thyroid gland function in swine A-5158
Contrast media for cerebral angiography ... B-692
Mode of action of neuromuscular blocking agents B-738
Cerebral arrival of injected radioisotope .. B-2575
Isotope studies in growth of thyroid cancer C-1915
The synthesis and function of plasma fibrinogen C-2238
Action and nature of active principles of Lithospermum C-2415
Effects of roentgen irradiation upon digestion C-2602
Nucleic acid biosynthesis with metabolic analogues C-3179
Protein studies of neoplastic tissues and fluids C-3518
Compounds for diagnosis of pancreatic neoplasms C-3952
Experimental thyroid tumorigenesis C-4043
Uniform polymer particle dispersions for research C-4111
Rotational photoscanning of the liver C-4456
Extension of internal organ scanning techniques C-4961
Immunochemical studies mouse mammary tumor agent C-4990
Antibodies to thyroid cancer C-5174
Cell culture for studies in cancer chemotherapy CY-5180
Factors influencing leak of perfusate C-5752
Effect of stress on hypersensitivity E-1358
Localization and metabolism studies on sensitive skin E-1446
Radioactive tracer materials in the study of infection E-2115
Protein metabolism in burns G-3561
Biophysical and endocrine changes in acclimatized rats G-5112
Snakebite treatment evaluated with iodine 131 labeled venom G-7024
Teratogenesis in relation to placental permeability G-7419
Blood-pH of mice--genetical and biochemical aspects G-7786
Circulatory, functional, metabolic studies of the kidney H-531
Conjunctival circulation in human pregnancy H-1100
Digital circulation in hypertension H-1164
Measurement of plasma and blood in organs H-1530
Physiological study of hyperpyrexia H-1798
Salt and water distribution in essential hypertension H-1835
Body composition by isotope dilution principle H-1909
Thyroid hormones and cholesterol metabolism H-1946
Experimental early endocarditis H-2190
Mechanisms regulating plasma protein H-2262
Blood volumes in toxemia of pregnancy ... H-2509
Circulatory dynamics and metabolic dysfunction H-2637
Venomotor responses to circulatory changes H-2644
Circulatory behavior of tagged erythrocytes and plasma H-3228
Plasma proteolytic behavior in response to injuries H-3307
Mechanism of action of antihypertensive compounds H-3475
Protein excretion by the kidney during inflammation H-3548
A critical study of circulatory mixing H-3665
Acquired resistance to fibrinolysin preparations H-3784
Use of ileal transplants as aortic autografts in dog H-3848
Cardiac failure after the age of 65 years .. H-3987
Intrathoracic pressures and intracranial circulation H-4033
Fate of iodine 131 and carbon 14 labeled triglycerides in humans H-4153
Sympathomimetic amines and vascular smooth muscle H-4301
Alveolar-capillary block following open-heart surgery H-4429
Metabolism and distribution of I131 labeled hypertension H-4477
A study of peripheral bed capacity changes H-4573
Hypertension H-4659
Liver circulation studies using radioisotopes H-4761
Reaction between iodine 131 isoantibodies and red cells H-5071
Plasma volume as determined with iodine 131 labeled PVP H-5165
Study of plasma lipid fatty acids patterns H-5541
Renal function studies with radio-renogram H-6146
Endotoxin shock in monkeys and mechanisms of pooling H-6266
Psychosomatic study of thyroid gland dysfunction M-1811

RADIOLABELED IRON

Nature of erythrocyte porphyrins in thalassemia A-466
The anemia of chronic renal disease A-1514
Purine metabolism and release of iron from ferritin A-1655
Iron metabolism in pregnancy A-2183
Tissue iron in anemia A-2887
The metabolic action of pituitary fractions A-3150
Human and experimental nutritional siderosis A-3532
Etiologic factors in hypochronic anemia .. A-4509
Metalloporphyrins and their proteins A-4805
Enteric iron transport in vivo and in vitro A-4969
Absorption and excretion of iron in animals A-5101
Study of humoral factors affecting erythropoiesis C-2149
Normal and abnormal bone marrow metabolism C-2643
Protein studies of neoplastic tissues and fluids C-3518
A study of iron metabolism in lead poisoning G-7501
Preservation of red cells H-974
Measurement of plasma and blood in organs H-1530
Studies in mechanisms of hemolytic anemias H-3107
Study of the synthesis of abnormal human hemoglobins H-3546
Occurrence of erythropoietic depression due to drugs H-3952
Experimental pulmonary hemosiderosis H-4784
Studies on erythropoietin in vitro H-4931
The mechanism and the control of iron absorption H-5618
A study of the functions of the hypoxic kidney H-5625
Susceptibility of Italians to drug induced hemolysis H-5682
Enzymatic incorporation of iron into protoporphyrin H-5831
Problems in erythrokinetics H-6126
Endotoxin shock in monkeys and mechanisms of pooling H-6266

RADIOLABELED KRYPTON

Electrolyte disturbances in cardio-renal disease H-340

RADIOLABELED MAGNESIUM

Magnesium metabolism in relation to disease in man A-1432
Some causes and effects of changes in cell cations A-3875
Role of magnesium in delirium tremens B-3152
Electrolyte alterations H-141
Radioisotopic magnesium studies in heart disease H-4551
Metabolic and biochemical studies of alcohol addiction M-1955

RADIOLABELED MERCURY

Correlation of histochemical changes to renal function A-2232
Electron microscopic and chemical studies of muscle A-4806

RADIOLABELED NITROGEN

Purine metabolism and gouty arthritis A-162
Metabolic effects of hormones A-1362
Studies of gouty arthritis A-1391
The study of nitrogen metabolism in fetal tissues A-3313
Metabolism of amino acids A-4872
Blood-brain barrier and the metabolism of amino acids B-557
Interrelation of nitrogenous compounds of tissues B-3099
Radioactive tracer studies on bacterial viruses C-2129
35 MEV electrons in cancer therapy and isotope production C-4701
Dynamics of the nitrogen cycle in lakes .. G-8359

RADIOLABELED OXYGEN

Metabolic mechanisms A-562
Physiologic studies of the living cornea in vitro B-2343
Studies on oxygenases C-4222
Metabolism and function of ribonucleic acid C-5757
The rate of protein synthesis in intact organisms E-2839
The function and properties of enzymes ... G-4930
Studies on pyruvate kinase and enolase ... G-5573
The biosynthesis of carotenoids G-5761
Total carbon dioxide output of large animals by deuterium oxide method G-5765
The mechanism of hydrolysis of organic phosphates G-5842

(contd)

RADIOLABELED OXYGEN (contd)

The relation between ionic and radical bond cleavage....G-5981
Hydrolysis of phosphonic esters....G-7764
Mechanisms of oxygen reactions....G-8119
Mechanism of enzyme action....G-8285
Altered antigenicity of equine and bovine arteries....H-2569
Physiological studies with radioactive oxygen-15....H-4390

RADIOLABELED PHOSPHORUS

Aseptic necrosis of the head of the femur.... A-265
Effect of vascular shunts upon the liver .. A-369
Isotopic measurement of blood supply of upper femur....A-2486
Rhesus monkey fetal skeletal biochemistry and growth....A-2597
Chromatographic fractionation of human proteins....A-2612
Silicon metabolism in relation to urolithiasis....A-2811
Acute chronic marrow failure....A-2992
FSH and its effects on ovarian metabolism....A-3061
Statistical constraints in amino acid order....A-3305
Congenital defects in rats deficient in vitamin B12....A-3947
Acceptor RNA and its role in protein synthesis....A-3989
Metabolic studies on bone demineralization in vivo....A-4071
Phosphorus 32 incorporation to human beta lipoproteins....A-4251
Electrolyte and water function of the kidney....A-4618
Studies of intestinal absorption of sugars....A-4719
Neuroendocrine and dietary control of prolactin....A-4784
Metabolism of phosphatides in human beings....A-4792
Nucleic acid synthesis during homograft rejection....A-4918
Carbohydrate metabolism of abnormal erythrocytes....A-5011
Radioactive isotopes in diseases of the eye.... B-188
Chemistry and metabolism of brain lipids.. B-356
Metabolism and function in sympathetic neurons.... B-702
Electrophysiological studies on single neurons....B-1650
Phospholipids and secretion in brain and glands....B-1730
The mechanisms of adrenal cortical steroid output....B-2007
Study of pathology and genetics of quivering in mice....B-2267
Effects of x-radiation on DNA synthesis....C-1747
Studies in drug leukopenia....C-1774
Isotope studies in growth of thyroid cancer....C-1915
Action and nature of active principles of Lithospermum....C-2415
Glycolytic mechanisms in red cell aging and hemolysis....C-3171
Nucleic acid biosynthesis with metabolic analogues....C-3179
Metabolism of the virus-induced tumors of Rumex....C-4294
Factors affecting mitochondrial physiology....C-4715
Differential diagnosis of gastric lesions ..C-4742
A study of leukokinetics in acute leukemia with DFP** CY-4826
In vitro metabolism of estrogens by tumor tissue....C-4863
Fractionation studies of soluble tumor proteins....C-5328
Fractionated radiation effect on mouse DNA synthesis....C-5497
Acid-soluble phosphate esters in red blood cells.... C-5643
The fate of intramembranous bone transplants....D-1313
Biochemistry of animal virus multiplication....E-1725
Integrated control methods against pest insects....E-2192
Mechanisms of gene transfer in bacteria....E-2317
Inhibition of protein synthesis by diphtheria toxin....E-2671
Studies of organophosphorus-resistant mosquitoes....E-2875
Phosphoprotein metabolism in E. coli....E-2968
Antibody production by spleen in tissue culture....E-3721
Phenotypic and genotypic function of a bacterial gene....E-3895
Structural basis of enzyme action....G-4614
Effects of specific antisera....G-4659
The function and properties of enzymes... G-4930
Isolation and function of nucleoli....G-5994
Spot shapes and multi-spots in paper chromatography....G-7046
Biochemistry of sperm....G-7301
Chemical studies in experimental arteriosclerosis.... H-109
Metabolism and preservation of human blood cells....H-1667
Endocrine-nutritional-lipid interrelationships....H-2528
Circulatory behavior of tagged erhthrocytes and plasma....H-3228
Effect of stress relaxation of lung compliance....H-3260
Myocardial nucleotides in congestive heart failure....H-3312
Cellular enzyme defect in nocturnal hemoglobinuria....H-3509
Nutritional studies of atherosclerosis....H-4371
Enzymatic phosphorylation of proteins....H-4442
Glycolytic pathways in erythroblastosis fetalis....H-4578
Metabolism of cardiac nucleotides....H-5212
Role of lipids in blood thromboplastin formation....H-5430
Study of life span of human blood platelets....H-5501
Arterial metabolism of glycerol-containing lipids....H-5601
Susceptibility of Italians to drug induced hemolysis....H-5682

RADIOLABELED POTASSIUM

Mineral metabolism of the isolated mesonephric kidney....A-2239
Body fluid regulation in acute renal failure.... A-2291
Effect of diet on body composition of infants....A-2506
Regulation of H2O, Na and K fluxes across GI mucosa....A-2827
Total exchangeable potassium in dehydrated infants....A-4696
Metabolism and function in sympathetic neurons.... B-702
Labyrinth fluid dynamics....B-2970
Diagnosis of brain tumors with radioactive potassium....C-2437
Ionic fluxes in normal liver and hepatomas....C-4417
Effects of x-ray on facial bone and teeth.... D-250
Tracer fluxes and net fluxes across cell membranes....G-8426
Edema in chronic heart failure.... H-35
Electrolyte alterations.... H-141
Salt and water distribution in essential hypertension....H-1835
Body composition by isotope dilution principle....H-1909
Potassium and sodium exchange of heart muscle....H-3288
A critical study of circulatory mixing....H-3665
Metabolism and fate of potassium as cardioplegic agent....H-4181
Electrolytes and response to therapy of hypertension....H-5100
Ion movements in beating hearts....H-5346
Physiological studies in experimental alcoholism.... M-4440

RADIOLABELED RUBIDIUM

Body fluid regulation in acute renal failure.... A-2291
Thyroid and cellular changes in pregnancy....A-4224
Electrolyte alterations.... H-141
Renal hemodynamics--RBC and plasma transit times....H-2987
Myocardial metabolism....H-5043

RADIOLABELED SELENIUM

Effects of selenium upon rat dentition D-739
Biosynthesis and use of Se-75 proteins as tracers....H-5916

RADIOLABELED SILICON

Siliceous skeletal formation in marine microorganisms....G-8229

RADIOLABELED SODIUM

Aspects of renal physiology.... A-92
Metabolism of bone sodium....A-1406
Mineral metabolism of the isolated mesonephric kidney....A-2239
Effects of hormones on active transport by frog skin....A-2783
Regulation of H2O, Na and K fluxes across GI mucosa....A-2827
Post operative electrolytes and adrenal activity....A-4908
Metabolism and function in sympathetic neurons.... B-702
Phospholipids and secretion in brain and glands....B-1730
Labyrinth fluid dynamics....B-2970
Disorders of water conservation in pituitary disease....C-4121
Radioactive tracer materials in the study of infection....E-2115
Ion transport in relation to voltage across frog skin....G-5625
Chronic placental ischemia in relation to preeclampsia....G-7470
Electrolyte alterations.... H-141
Conjunctival circulation in human pregnancy....H-1100
Biophysical and biochemical components in ion transport....H-1441
Sodium 24 metabolism studies in hypertension....H-1574
Salt and water distribution in essential hypertension....H-1835
Body composition by isotope dilution principle....H-1909
Interrelationship of pressor and depressor substances....H-3097
Potassium and sodium exchange of heart muscle....H-3288
Ion movements in beating hearts....H-5346
Study of myocardial blood flow and congestive failure....H-5710
Physiological studies in experimental alcoholism.... M-4440

RADIOLABELED STRONTIUM

Metabolism of calcified tissues.... A-592
Study of osteoporosis.... A-855
Metabolism of steroids during pregnancy..A-2209
Calcium 45 and Strontium 85 metabolism in osteoporosis....A-2212
Chronic alterations in extra-cellular fluid composition....A-2306
Rhesus monkey fetal skeletal biochemistry and growth....A-2597
A simplified bio-assay system for vitamin D.... A-3639
Complexation studies by nuclear magnetic resonance....A-4094
Tracheal reconstruction with induction of osteogenesis....C-5067
Metabolic and hormonal effects of steroid hormones....CY-3598
Calcium kinetics in metabolic bone disease....D-1452

RADIOLABELED SULFUR

Studies of calcification.... A-521
Chemical pathology of lesions produced by ethionine.... A-610
Role of non-protein sulphydryl compounds in the body.... A-719
Bone metabolism.... A-774
Protein metabolism in nephrosis....A-1323
Physiology of leukocytes....A-1505

Triiodothyronine localization in pituitary and CNS A-1530
Synthesis and utilization of plasma proteins A-1543
Metabolism during the healing of wounds A-1966
A study of the kinetics and metabolism of insulin A-2041
Hypoalbuminemias and hypogammaglobulinemias A-2117
Taurine excretion in normal and diseased states A-2214
Ovarian sensitivity in hypothyroidism--cyst etiology A-2321
Repair and transplantation of joint surfaces A-2406
Studies on ester sulfate compounds in tissues A-2568
Metabolic fate of rodent tissue NPSH following trauma A-2577
Turnover of serum mucoproteins A-2778
Selenium and dietary hepatic necrosis in the rat A-2888
Biosynthesis of mucopolysaccharides and components A-2903
FSH and its effects on ovarian metabolism A-3061
Effects of parathyroid hormone on bone ... A-3224
Statistical constraints in amino acid order A-3305
Effect of vitamin A on keratinization A-3424
Tissue enzymes in rheumatic diseases ... A-3949
Metabolism in cartilage mucopolysaccharide synthesis A-3967
Age, sex and hormone variation and dermal metabolism A-4101
Studies of bone matrix during disuse A-4396
Excretion of sulfate acceptors in metabolic disorders A-4410
In vivo and in vitro metabolism of lipoid acid A-4877
Mechanism of protection against ionizing radiation A-4957
The mechanism of light-induced hypophysial activity B-1353
Brain glycolipids--metabolism and pathology B-3192
The role of mercapturic acids in metabolism C-1524
Carbon 14 estrogen metabolism in pregnant and cancerous women CY-2071
Studies on the uptake of radiosulfate by neoplasms C-2770
Endocrine glands and neoplastic disease C-3424
Sulfate metabolism in precancerous lesion and cancer C-4697
Studies with organ cultures C-5035
Studies on agranulocytosis C-5524
Anthelmintic action of phenothiazine E-1696
Protein metabolism in burns G-3561
Biochemistry of aplastic anemia G-4730
Penetration and action of surfactants on epidermis G-4760
Water and electrolyte studies in experimental ascites G-4942
Intermediary metabolism of sulfur in two plants G-4987
Synthetic detergents in soils and ground water G-6560
The role of heparin in immunological processes H-1919
Electrolyte exchanges of kidney tissue ... H-2061
Experimental early endocarditis H-2190
In vivo dynamics of clotting and hypercoagulability H-2274
Metabolic transformations of heparin H-2823
Study of the synthesis of abnormal human hemoglobins H-3546
Arterial sulfur 35 in experimental atherosclerosis H-4543
Sulfomucopolysaccharides in cardiovascular diseases H-4714
Phenothiazine metabolism in psychiatric patients MY-3968

RADIOLABELED TRITIUM

Metabolism of calcified tissues A-592
Absorption after minimal resection of small intestine A-910
Experimental diabetes A-1129
Protein metabolism in nephrosis A-1323
Isotopic methods for in vivo study of fat metabolism A-2131
Mineral metabolism of the isolated mesonephric kidney A-2239
Radiation effects of thymidine-6-tritium .. A-2423
Endocrines in fetal development A-2561
Regulation of H20, Na and K fluxes across GI mucosa A-2827
Measurement of chemical composition of living animals A-2889
Secretion and effects of adrenocortical hormones A-3062
Metabolism and secretion of aldosterone in pregnancy A-3179
Electron microscopy of lymphoid tissues .. A-3355
Studies on bone marrow preservation growth A-3597
Adrenocortical cytology--studies with thymidine-H3 ..... A-3786
A study of water movement through a living membrane A-3858
Renal insulin clearance and degradation .. A-3882
Congenital defects in rats deficient in vitamin B12 ..... A-3947
Hyperlipemia and hypercholesterolemia ... A-4059
Studies on growth hormone A-4080
Hormonal control of metabolism in adipose tissue A-4411
Biological oxidations in mitochondria and microsomes A-4662
Histochemical study of intestinal glucose absorption A-4816
Metabolism of aldosterone A-4855
Normal growth of hepatic parenchyma A-4976
Development of the mammalian nervous system B-382
Effect of denervation on injured tissues .. B-578
Distribution and fate of morphine and related alkaloids B-625
Mechanisms of nerve influence in appendage regeneration B-923
Development of the early neural tube B-1148
Vitamin deficiency effects on the nervous system B-1906
Cytology of the embryonic mammalian nervous system B-1938
Physiologic studies of the living cornea in vitro B-2343
Histogenesis of mammalian cerebral cortex B-2853
Metabolism of sphingolipids and radio-labeled carbon fatty acids B-2967
Labyrinth fluid dynamics B-2970
Distribution of tritiated acetazolamide B-3216
Pathogenesis of inherited developmental brain disease B-3262
Nuclear phenomena in the mouse liver C-510
Carbon 14 estrogen metabolism in pregnant and cancerous women CY-2071
Configurational changes in protein molecules C-2248
Cooperative study on the chemotherapy of leukemia CY-2347
In vitro culture of hematopoietic tissues .. C-2566
Steroid response to therapy in prostatic cancer CY-2711
Steroids and growth CY-2897
Physiological disposition of anticarcinogenic drugs CY-2992
Agents for the treatment of metastatic breast cancer CY-3060
Chromosome replication C-3276
Studies on carbon 14 and tritium labeled antitumor agents CY-3349
Endocrine glands and neoplastic disease C-3424
Permeability of the leukocyte and the neoplastic cell C-3690
Macromolecular organization of bacteria .. C-3860
Radiobiological technics in human cancer therapy C-3896
Identity of intermediates in one-carbon metabolism C-3981
Cytochemical studies of normal and malignant growth C-4077
Hepatic carcinoma and post-necrotic cirrhosis C-4119
Chromatography and metabolism of DNA of tumors C-4238
Studies in human malignancy CY-4252
Effects of regenerating tissue on tumors in anurans C-4511
Metabolism of nucleic acids and proteins in growing cells C-4526
Leukocyte regulatory mechanisms C-4659
Tumor-host relationships in vivo and in vitro C-4765
Radioactive labeling of leukocytes CY-5001
Leukocyte formation in normal and leukemic cattle C-5044
The control of doxyribonucleic acid synthesis C-5066
Tracheal reconstruction with induction of osteogenesis C-5067
Ultrastructure of growing and differentiating cells C-5196
Autoradiographic studies of antitumor agent action CY-5222
Metabolism of tritiated steroid sex hormones in man CY-5299
Mechanism of action of amino acid analogs CY-5310
Studies of cirrhosis and cancer C-5313
Pathogenesis of tumor metastasis C-5319
DNA turnover of tissues and tumors with hydrogen 3 thymidine C-5325
Conversion of ribonucleotides to deoxyribonucleotides C-5329
Physiological disposition of anticarcinogenic drugs CY-5445
Pyrimidine uptake by normal and leukemic leukocytes C-5492
Studies on agranulocytosis C-5524
Control mechanisms of tumor glycolysis. CY-5706
Role of adrenal cortex on secretion of saliva D-329
The salivary secretion of organic compounds D-1335
Intermediary metabolism of autotrophic bacteria E-1284
Allergic eczematous contact dermatitis ... E-1359
Localization and metabolism studies on sensitive skin E-1446
Fate of gibberellic acid and soil microbial activity E-2083
DNAase in the study of staphylococcal diseases E-2757
Amino acid metabolism in rhabditic nematodes E-3469
Metabolic activities of leucocytes E-3775
Metabolic interrelations between body proteins G-1852
Studies of the maternal system and product of gestation G-3354
Nuclear-cytoplasmic relations in the bee larva G-4655
Studies on development of the testis G-4714
The biosynthesis of carotenoids G-5761
Influence of nuclear damage on cell metabolism G-6214
Cell formation and fate utilizing labeled nucleotides G-6309
Measurement of water exchange in red blood cells G-6696
Radioautographic study of amphibian regeneration G-7062
Myogenesis and chondrogenesis at limb regeneration G-7491
Investigations of gene conversion in Neurospora G-7664
Non-dynamic components of mammalian tissues G-7699
Digital circulation in hypertension H-1164
Mode of action of digitalis on the heart ... H-1422
Amino acids, polypeptides and related compounds H-1675
The ultrastructure of the diseased kidney. H-1834
Reversible myocardial damage after coronary occlusion H-1978
Research in cardiopulmonary physiology .. H-2001
Experimental early endocarditis H-2190
Renal hemodynamics--RBC and plasma transit times H-2987
Erythrokinetics H-2994
Morphological effects of serotonin H-3647
Amino acids in cardiovascular renal diseases H-4148
Cholesterol metabolism and transport H-4407
Effect of liver damage on metabolism of digoxin H-4713
Metabolism of cardiac nucleotides H-5212
Studies on tritium-tagged digoxin H-5511
Intracellular site of action of digitalis H-5663

(contd)

RADIOLABELED TRITIUM (contd)
Cardiac intermediary metabolism in chronic failure H-5775
Metabolism and mechanism of action of digitalis H-6208
Studies on fate of lymphocytes H-6257
Biologically inactive catechols in mental disease MY-1434
Emotionality, stress, and brain amine levels MY-3651
The biochemical basis of narcotics addiction M-4294
Biochemistry of catecholamines in emotional disorders M-4824

RADIOLABELED ZINC
LH bioassay by zinc 65 uptake by dorsolateral prostate A-4622
Factors regulating intestinal absorption of minerals CY-1540
Compounds for diagnosis of pancreatic neoplasms C-3952

RADIOLOGISTS
Cohort study on radiologists G-6573
Mortality and morbidity in radiologists ... G-8277

RADIOLOGY

Metabolic aspects of surgical care and convalescence A-2657
Nutritional and endocrine control of liposis A-2693
Assay of steroid 3-beta-ol-dehydrogenase A-2795
Chromatography for aldosterone and adrenal steroids A-3148
Steroid hormones and growth in children .. A-3164
Effects of sex hormones upon longevity in rats A-3299
Pathogenesis of constitutional virilism... A-3341
An anti-osteoporosis factor in man and animals A-3793
A histochemical study on the gonads of the fowl A-3895
Plasma hormonal levels in functional uterine bleeding A-3990
Gynecomastia and estrogen metabolism in the male A-4134
Relation of hormones to osteoporosis A-4340
Glycyrrhetinic acid and the response to sex hormones A-4597
Hormonal influences on growth in rats A-4770
Variations of ovarian levels in mares..... A-4932
Hormones and biochemical constituents of tissues A-4965
Endocrine and neural control of reproduction A-5586
Rhinencephalon in neuroendocrine mechanisms B-1162
The thyroid gland and brain amine metabolism B-2143
Neuro-endocrine relations of the primate ovary B-2533
Cell activity in the hypothalamo-hypophysial complex B-2958
Incidence of metastases under experimental conditions C-2080
In vitro culture of hematopoietic tissues .. C-2566
Histogenesis of hormone-induced tumors.. C-2791
Hepatic tumors in normal and hyperthyroid rats C-2846
Hormonal control of normal neoplastic tissue grafts C-2880
Secretion of gonadal hormones in man.... C-3588
Metabolic and hormonal effects of steroid hormones CY-3598
Rat liver polyploidization and its hormonal control C-3732
The human ovary--perfusion and steroid measurement C-4009
Carcinogenesis and tumor growth in the Syrian hamster C-4516
Gonadotropin-secreting pituitary tumor in the hamster C-4803
Hormonal regulation of malignant melanoma CY-5104
Hormones influencing mammary growth and carcinoma C-5105
Nature and origin of epithelium of the cervix uteri C-5219
Metabolism of tritiated steroid sex hormones in man CY-5299
Adrenal and gonadal tumor response to tropic hormones CY-5301
Radiation induced breast tumors in the rat C-5496
Endocrine and other control of neoplastic lymph nodes C-5550
Sexual hormones of Achlya ambisexualis E-1856
Pathogenesis of acne vulgaris E-1936
Steroids, their function and degradation in bacteria E-2081
Host-parasite relationships in echinococcosis E-2205
Response of connective tissues to hormones G-4433
Effect of steroids upon spermatogenesis .. G-5961
Fetal resorption studies in golden hamsters G-6156
Endocrinology of reproduction in elasmobranch fishes G-6455
Histochemistry of shell formation in invertebrates G-6772
Survival of placental grafts in millipore chambers G-6923
Studies on the physiology of the mammalian oviduct G-7063
The hormonal control of ovarian abnormalities G-7184
Experimental studies on the delay in implantation G-7251
Biochemistry of sperm G-7301
Steroid hormones produced by the human fetus G-7815
Cytology of urinary sediment in childhood G-8255
Tissue heparin, the thyroid and atherosclerosis H-1596
Sex hormones and atherosclerosis in humans H-1741
Factors which modify the actions of digitalis H-3585
The cause of dissecting aneurysms of turkeys H-3776
Uterine ischemia and body fluids in pregnancy H-4305
Hormonal control of basophilic leukocytes H-4534
Sex hormones and essential fatty acid deficiency H-4567
Sex hormones and cholesterol metabolism H-4918
Psycho-biologic study of female reproductive function M-2484
Subvention for Allen's sex and internal secretions M-4648

SEX HORMONES ANALOGS

Dienol-benzene rearrangement of steroids CY-4663

SEXUAL PRECOCITY

See also Adrenogenital syndrome
See also Hyperovaria
Comparative study of 19-nortestosterone derivates G-5162

SG 67
